SEEDS AND PLANTS

BLOOM FROM
JULY
TO
OCTOBER

MALLOW MARVELS

PINK
WHITE
RED

Mallow Marvels are a wonderfully improved form of our greatly admired Marshmallow or Hibiscus, in which flowers of enormous size, frequently 10 to 12 inches in diameter, have been developed. A robust type of upright habit, growing from 4 to 7 feet high, and

producing an abundance of flowers in all shades of crimson, pink and white. These plants can be highly recommended for all kinds of plantings and appear to be equally at home in all positions, having the same vigor in dry and wet ground and are as hardy as an oak. Bloom continually from July until October. Our field grown plants are blooming size (will blossom this year), and are the richest and finest mixture of colors we have seen. 20c each; 3 for 50c; 12 for \$1.50, post-paid.

BURGESS SEED & PLANT CO., GALESBURG MICH.

Burgess' Everbearing Strawberries, Everbearing Raspberries, Green Corn, Squash and Watermelons.
Grown on our own seed farms. Picked and photographed in October.

Champion Everbearing Strawberry

The Champion Everbearing Strawberry has broken all records by producing from one acre 5623 quarts of berries in 169 days, bringing the grower in 129 days, \$2,059.20. This was accomplished on a sandy soil without irrigation.

Without doubt, it is the best everbearing strawberry you can secure and we recommend it above all others. We caution our customers to beware of substitutes for the Champion. There are other varieties that resemble it in appearance of plant and berry but not in productiveness. As this variety was introduced only four years ago there will not be enough plants grown to supply the demand. Send your order early and we will reserve true-to-name Champion plants for you.

The Champion blossoms early in the spring, along with the old fashioned varieties and commences fruiting with them, and from then on all summer and through September, October, and even November and into December some seasons. They are very hardy, withstanding hard frosts without injury to fruit or blossoms. Early frosts, if severe, will kill the blossoms that are open, but new blossoms take their place and the vines go on fruiting.

Set out a patch of Champions this spring. They will begin to fruit in paying quantities about the middle of July, the same year the plants are set out. Fresh berries bring fancy prices at the time of the year the Champions are bearing. There is money in it for you. Order plants now, to be delivered at the proper time for planting, and have all the berries you want this summer and next fall.

PRICES: 25 for \$1.00; 50 for \$1.85; 100 for \$3.50; by parcel post, postpaid. If you want plants sent by express, you to pay the express charges, we can quote you \$3.00 per 100; \$6.00 per 250; or \$20.00 per 1,000 in lots of 500 or more.

Cooper, the Biggest Strawberry Grown

Strawberry growers have for many years been clamoring for a strawberry that would combine large size and productiveness. We are now able to offer such a berry. This new variety has created a sensation in the horticultural world. Growers all over the country are discarding all other varieties. No variety is more productive than the Cooper, and no variety surpasses it in shape, color, appearance, quality, size and delicious flavor. It is the most thrifty strawberry grown, the root system being the greatest ever developed by any variety of strawberry. The plants often grow to more than a foot in height, thus affording shade to the enormous loads of fruit and also a protection from frosts. Cooper is without a single exception the best strawberry grown, medium-early, and a big money maker.

PRICES: 25 for 75c; 50 for \$1.25; 100 for \$2.25, by parcel post, postpaid. If you want plants sent by express, you to pay the express charges, we can quote you \$1.75 per 100; \$3.50 per 250; or \$11.00 per 1,000 in lots of 500 or more.

Premier, the Earliest of All

It is impossible to say too much in praise of this most wonderful of all early strawberries. While it is the earliest strawberry ever produced, it is so frost resistant in both bud and blossom that its fruit crop has never been destroyed. Think what this means to the market grower. Premier eliminates crop uncertainties, and by ripening five days to a week ahead of any other kind, it never fails to command the highest prices. Berries are large, of a bright red color, and more uniform in size than any other kind. It is a general all around strawberry, equally good for market, table use or canning.

PRICES: 25 for 60c; 50 for \$1.00; 100 for \$1.75, by parcel post, postpaid. If you want plants sent by express, you to pay the express charges, we can quote you \$1.25 per 100; \$2.50 per 250; or \$8.00 per 1,000 in lots of 500 or more.

Eaton, the Best for Canning

Eaton is a medium-late strawberry and is one of the heaviest yielding varieties ever produced. All berries are large in size and rich, dark red clear through to the heart, and every one perfect in shape. Its flavor and quality are of the best and its unusual firmness makes it the best long distant shipper. As a canner, Eaton leads them all. No matter how long they remain in the can they will not discolor or soften.

PRICES: 25 for 60c; 50 for \$1.00; 100 for \$1.75, by parcel post, postpaid. If you want plants sent by express, you to pay the express charges, we can quote you \$1.25 per 100; \$2.50 per 250; or \$8.00 per 1,000 in lots of 500 or more.

Vegetables, Fruits and Flowers

For the Discriminating Planter

GREETINGS TO OUR FRIENDS AND CUSTOMERS:

We take pleasure in presenting to you our 1926 catalog, and trust it will be found useful. From a small beginning, this business has developed into one of the large seed and plant establishments of the country. When you stop to consider that this business was established only thirteen years ago, and that we have done but very little advertising, it is quite apparent that there must be some good reason for this rapid growth. It has been accomplished by supplying the best grade of seeds, plants and bulbs that could be grown; by absolutely guaranteeing everything we send out, and living up to that guarantee; by giving every order, no matter how small or large, prompt and careful attention; and by a strict adherence to the broad principle of giving all purchasers the full worth of their money.

We take this opportunity of thanking our many customers for their generous patronage, and to assure them that we will continue to do all in our power to merit a continuance of their confidence.

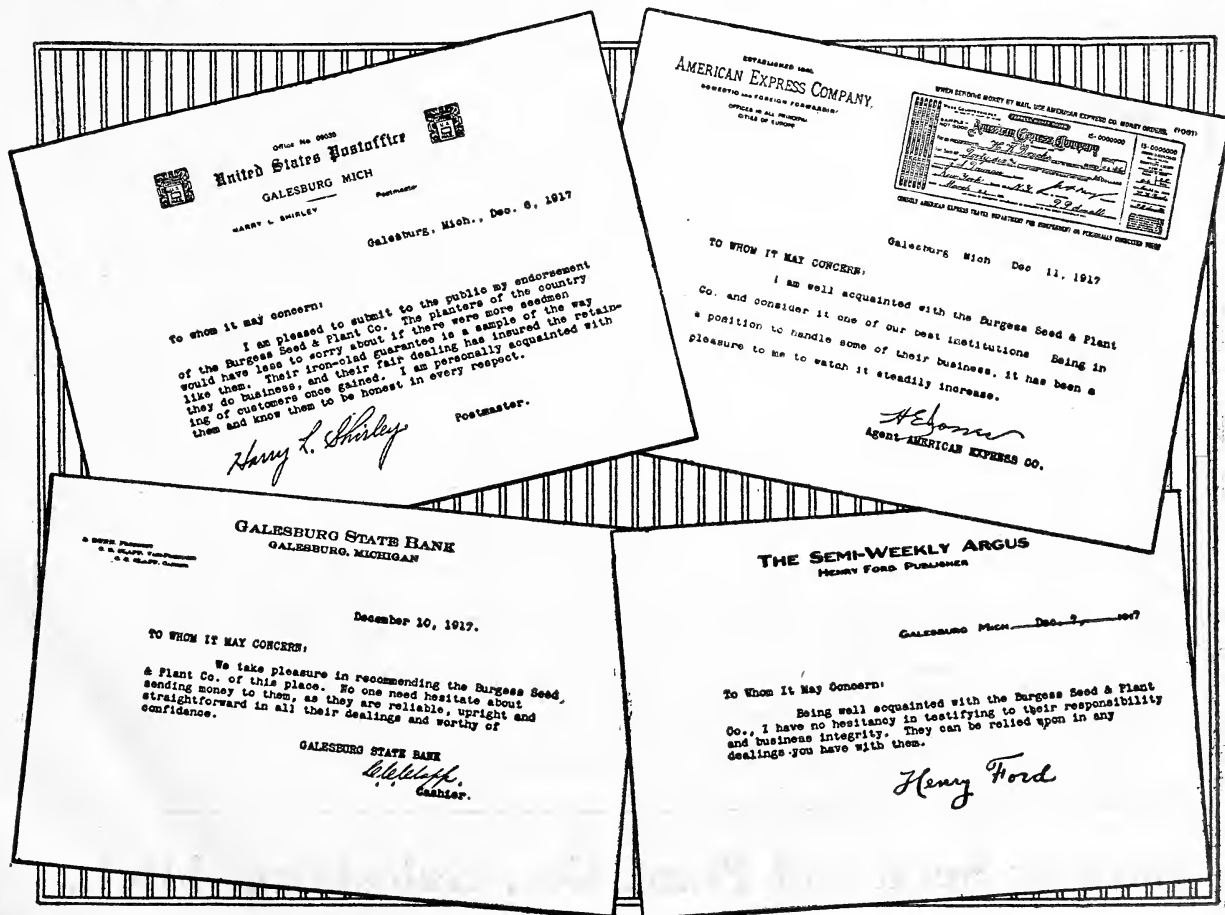

Faithfully yours,

BURGESS SEED & PLANT CO.

We Filled 122,274 Orders Last Season, to Satisfied Customers

OUR GUARANTEE of Satisfaction

A Guarantee that is a Guarantee

SEED Guarantee

We positively guarantee all seeds sold by us to be exactly as described in this catalog, and fresh, pure, genuine and unadulterated, carefully selected and tested. We also guarantee them true-to-name, and will replace, free of charge, any that may prove otherwise through a possible error.

We also guarantee our seeds to be of high germination, for we exercise great care in growing, selecting and sorting all seeds before sending them out, and we guarantee all seeds we send out to arrive in good order.

We do not guarantee crop. No reasonable person could expect us to do that. Even with Burgess' superior quality seeds, success depends largely upon cultivation, soil and weather conditions, so it is therefore agreed that in no case shall the Burgess Seed & Plant Co. be liable for more than the original purchase price.

PLANT Guarantee

Our nurseries have been inspected by the State Inspector of Nurseries and all nursery stock found to be in a healthy condition—free from disease and insect pests. We guarantee all roots and plants sent out by us to be exactly as described in this catalog and true-to-name.

Every customer is entitled to receive, in good condition, sound, healthy plants. We will replace without charge any stock that does not reach the purchaser in good condition or that is not free from injurious insects or disease, provided we are notified within five days of arrival of the plants and such stock is heeled in and held subject to our disposal. Unless a customer reports within five days after receipt of plants it is understood that the plants arrived in a live and healthy condition. It is not our fault if later the plants fail. The life of a plant after it reaches the planter depends upon conditions over which we have no control.

The chief causes of failure after nursery stock is received are: Drying out in the sun or wind or freezing in the cold; failure to properly prune the roots and tops; crowding the roots into small holes cut out of the sod; planting in worthless soil; the use of too much fertilizer or placing of manure or fertilizer in direct contact with the roots; failure to tramp the soil firmly about the roots; drains; dogs; pests; children; heat; cold; accidents; wrong locations; lack of moisture; and lack of proper care and attention. No fair-minded customer would ask for replacement when failure to grow is unquestionably due to such causes, but when the cause of failure is unknown and the customer reports such loss by August 1st following planting, we will replace such stock at one-half price.

Our methods of propagation and handling stock insure to the greatest extent the true labeling of our plants. It is mutually agreed, however, between the purchaser and ourselves that we are to be held liable for not more than the purchase price if any error should be made.

We absolutely protect the purchaser. Our guarantee is a guarantee that guarantees. It is a guarantee that will "hold water." It is more than idle talk. It means something. It is tangible, collectible assurance that you are spending your money wisely. There are no loopholes in this guarantee. It is in every way binding on us and means just what it says. It is the best protection to the planter that was ever offered by a responsible house. Demand this guarantee wherever and whenever you buy.

Burgess Seed and Plant Co., Galesburg, Mich.

Burgess' Earliest and Best Tomato

The Earliest and Best Tomato on Earth

Burgess' Earliest and Best Tomato is the earliest and best variety grown. Not only will it produce large, beautiful solid shipping Tomatoes earlier than any other variety, but it produces the most perfect High Crown Tomatoes ever grown, and entirely free from core. No cripples, no scalds, no blight, no cracked, no wrinkled, no one-sided, uneven, scarred fruit, and when dead ripe they will not burst.

Not only is it the most beautiful bright red Tomato you ever saw, but it also has the finest flavor.

It is almost seedless. A marvelous stem setter; often ten fruits in first cluster, and all solid and meaty.

It has just enough foliage—will stand plenty of manuring without going to vine.

It is the most perfect shipping Tomato ever grown.

Being such a tremendous yielder, it can be gathered in one-half the time of any other tomato, and peelers can prepare three bushels to one bushel of any other variety.

Just think of it! A tomato earlier than Earliana and better than Stone. On our seed farms here in Michigan it ripens fruits fully two weeks earlier than the much advertised Burbank Tomato, and so much better that for quality there is no comparison. If you can grow but one variety, let that one be Burgess' Earliest and Best. Pkt., 10c; 3 pkts., 25c; oz., 50c; ¼ lb., \$1.50; lb., \$5.00; postpaid.

Burgess' Earliest and Best Tomato

Burgess' Drought-Proof

Drought-Proof Pea

Laughs at Drought, Smiles at Rain

Burgess' Drought-Proof will do well under a wider range of weather and soil conditions than any other variety. It will grow a crop during the driest, hottest summer months, at a time any other variety would be a failure. In the hot, dry localities of the West this variety will grow a large crop without irrigation and without a single drop of rain falling upon it from seed time to harvest. For midsummer or late summer planting this is the variety to plant. If it rains and the soil is kept moist this variety will produce as large a crop as any variety we know of; if it doesn't rain, and it gets hot and dry, you will get a crop anyway. The handsome round pods are well filled with from 7 to 10 peas in a pod; quality excellent, sweet and tender, even when the peas are large. Vines grow 2 feet high, and require no support. This is the pea that will do its best in the North, South, East or West. Don't fail to give it a trial. Pkt., 10c; ¼ lb., 20c; lb., 60c; 3 lbs., \$1.50; postpaid.

Lima Peas

This is the most wonderful Pea in the world. The peas are as large as the largest Lima Bean, and nearly the same shape. This pea is very hardy and can be planted as soon as the ground thaws out in the spring. We plant them here a month ahead of any other garden. In growth it is unlike other varieties of peas, for instead of being a vine, it is a bush of upright growth, about 2 feet high, with strong, sturdy stalks. It is wonderfully productive. Botanically it belongs to the Horse Bean family, and has been advertised to some extent as a Giant Butter Bean, but in reality it is more like a pea than a bean. The Lima Pea is a most delicious vegetable, and sure to become as popular as the Lima Bean. We have but a limited amount of the seed, so are selling it in packets only. Packet, 15c; 2 pkts., 25c; 5 pkts., 50c; 12 pkts., \$1.00; postpaid.

Early White Welsh

Early White Welsh Onion

White Welsh is the best kind for green onions. It forms no bulbs, and is the first variety to be ready in the spring. Market gardeners find it extremely profitable, as it makes a most attractive bunch and sells at good prices before onions grown from sets are ready for the market. It is a perennial, perfectly hardy, and when once set out will remain in the ground year after year. It does not produce top sets, but is propagated from seed or divisions. It is very mild, of excellent quality, and no garden is complete without a row of these onions. Pkt. 10c; 3 pkts., 25c; oz., 45c; ¼ lb., \$1.35; lb., \$4.50; postpaid.

Lima Peas

ALL SEEDS DELIVERED UNPAID
at prices quoted in this catalog.

Burgess' Everbearing Kentucky Wonder

CHINESE SALAD BEAN This is the delicious bean that is served in chop suey and salads in the finest Oriental Cafes and Chinese Restaurants. Chinese Bean Sprouts are an all-the-year-around salad. You can have this fresh vegetable in the winter as well as in the summer. They will grow in the kitchen and require **ONLY 5 DAYS FROM PLANTING TIME TO HARVEST.** Trial package of seed 10c; 3 for 25c; 7 for 50c; 15 for \$1.00, postpaid. *Directions for growing and preparing for the table given with every order.

Chinese Celery Cabbage

A most delicious vegetable which combines the rich celery flavor with that of the cabbage. Can be cooked or eaten raw like celery. Makes as good salad as the finest head lettuce. The mid-ribs can be cooked like asparagus, and for cold slaw no cabbage compares with it. One of the most delicious vegetables yet introduced, and bound to become one of the most popular. Pkt., 10c; oz., 30c; ¼ lb., 85c; lb., \$2.75, postpaid.

Witloof Chicory (Winter Salad)

Chinese Celery Cabbage

Witloof is a delicious winter vegetable. It makes one of the finest of all salads, is very fine served with French dressing and eaten like lettuce, and is also excellent boiled. Plant seed in May or June in open ground and in the fall dig roots, cutting off the leaves and store in soil in a cool place until wanted for forcing. About a month before wanted the roots should be planted in boxes of earth, in a cool, dark place in the cellar. If not grown in a dark place it should be banked up like celery, as it is the blanched stalks that are used. Coming, as it does, in the middle of the winter, it is bound to become popular as it becomes better known. Pkt., 10c; oz., 25c; ¼ lb., 75c; lb., \$2.50; postpaid.

Burgess' Everbearing Bean

Burgess' Everbearing or Everbearing Kentucky Wonder is without exception the finest flavored snap bean grown. The green pods, seven to ten inches long, are so fleshy they are often greater in width than breadth. They are solid, meaty, and very crisp. They commence bearing exceedingly early for a pole or climbing sort, and if pods are gathered as they mature the vines will continue to bear until killed by the fall frosts. This is one of the few pole beans that will bear a satisfactory crop without being poled. It will not produce as large a crop if grown without poles but will be more productive than any of the dwarf sorts. By planting a few hills in your corn, the corn stalks will act as a support for the vines, and you will get a good crop of both corn and beans. Pkt. 10c; ¼ lb., 15c; lb., 45c; 3 lbs., \$1.25 postpaid.

The "Chestnut Bean"

This wonderful Bean looks like a gigantic Pea. When boiled it has a flavor like boiled chestnuts, and is one of the most delicious beans grown. Grows in the form of a tall bush, and is completely covered with pods. For soup and turkey stuffing it can not be surpassed. It is a Spanish Bean, and is known as the "Garbanzo" Bean. We have but a limited amount of the seed so are selling it in packets only. Pkt., 15c; 2 pkts., 25c; 5 pkts., 50c; 12 pkts., \$1.00; postpaid.

Witloof Chicory

Yard Long Bean

This is an excellent variety, as well as an interesting curiosity. The vines are rampant growers and produce an enormous crop of long, slender, round pods which are of excellent quality for snap beans. The round pods are from 2 to 4 feet in length, having the thickness of a lead pencil. Produce late in the summer, very productive, tender and of fine flavor. Pkt., 10c; 3 pkts., 25c; ¼ lb., 50c; lb., \$1.50; postpaid.

Yard Long

Mushrooms

Each brick of our Pure Culture Mushroom Spawn will plant 10 square feet of bed. 50c per brick; 3 bricks, \$1.35; 6 bricks, \$2.00, postpaid. By express, not prepaid in quantities of 6 or more bricks, 25c per brick. Cultural directions free with each order for spawn.

Golden Acre Cabbage

The Golden Acre is the earliest round head cabbage yet introduced. Matures hard, round heads, nine inches in diameter, 80 days from time of sowing seed. Uniform in size and growth, compact in habit, with few outer leaves permitting close planting. The heads are firm and solid and fully equal to any of the late sorts, and will stand in the field for a month or more without bursting. The most profitable variety to raise for the early market. Pkt., 15c; 2 pkts., 25c; oz., 70c; ¼ lb., \$2.25; lb., \$7.50, postpaid.

"Chestnut" Bean

New Golden Acre Cabbage

Beefsteak Lettuce

One of the best varieties for the home garden. Does not form tightly folded heads, but makes a compact bunch of leaves. The large, crimped leaves are highly colored brownish-red; crisp, sweet and exceedingly tender; very early, and stands a long time without going to seed. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c; lb., \$2.50, postpaid.

Burgess' Celery Lettuce

Burgess' Improved Cos or Celery Lettuce is an entirely distinct type of lettuce, and is rapidly gaining favor. The plants are of erect growth, forming a slightly oblong bunch of large, crisp leaves. The outer leaves should be gathered together at the top and loosely tied with a piece of soft string for several days before wanted for use. This blanches the inner leaves to snowy whiteness and brittle crispness. **BURGESS' IMPROVED** is the best variety, always sweet and tender and of the best quality, even when grown during the hot summer months. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 70c; lb., \$2.25; postpaid.

Beefsteak Lettuce

Los Angeles Lettuce

The greatest head lettuce ever introduced, and furnishes fine crisp lettuce during the hot summer months. The largest variety grown, often producing heads weighing more than 2 pounds each, nearly as solid as a cabbage, and inside leaves blanched to beautiful creamy-white. Stands shipping as well as cabbage and remains in condition longer than other sorts. The most crisp and tender head lettuce grown. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c; lb., \$2.50, postpaid.

Chicken or Rabbit Lettuce

The best green feed for chickens or rabbits. In this new variety you will find a feed that yields as much or more than other green feeds. It is economical to grow, for when cut it resumes its growth rapidly and can be cut again and again; or the leaves can be pulled off each stem like the Jersey Kale. The yield is extremely heavy. Chicken or Rabbit Lettuce is too coarse for a table variety. Grows 3 to 4 feet high and just loaded with large leaves. Pkt., 10c; 3 pkts., 25c; oz., 50c; $\frac{1}{4}$ lb., \$1.50; lb., \$5.00; postpaid.

Chicken or Rabbit Lettuce

Chinese Cucumber

A remarkable new long green cucumber from China, with fruits about 20 inches long or over, and 2 to 3 inches in diameter; skin deep green; flesh solid, crisp and of fine flavor. Nearly as early as the early short varieties; vines strong, vigorous and productive. You will be pleased with this wonderful cucumber. Pkt., 10c; 3 pkts., 25c; postpaid.

New Perfected Davis Perfect Cucumber

The most handsome and best all around cucumber. The quality of this early variety is superior to any other we have seen. The long, even fruits are of fine form, with an intensely dark green skin. It has very few seeds, and the few that are in it when in slicing condition are so very small and tender they are unnoticeable. By using our perfected strain a crop can be produced out of doors which cannot be distinguished from greenhouse stock. It loads its vines so heavily that it seems impossible for them to mature the fruit. Under glass it is the most productive of any variety, and for outdoor growing they yield even better than in the greenhouse. We believe that our strain of Davis Perfect is the best cucumber grown. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 60c; lb., \$2.00; postpaid.

White Wonder Cucumber

Color of White Wonder is beautiful pure snow white. It grows to good size, usually 8 to 10 inches long, and is very uniform. In season almost the same as the White Spine, but keeps in eatable condition longer. Flavor is pleasing and flesh firm and crisp. Fine sliced or in salads. Its smooth, clear surface makes the White Wonder an ideal pickle. Aside from excellent qualities of fruit, White Wonder bears a great quantity of them. A packet of seed will furnish you cucumbers in abundance. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c; lb., \$2.50; postpaid.

Burgess' Celery Lettuce

New Perfected Davis Perfect Cucumber

New "Hearts of Gold" Muskmelon

"Hearts of Gold"

The Hearts of Gold Muskmelon was first offered planters but a few years ago, and owing to its superior quality has rapidly taken first place in all localities where it has been introduced. This variety has been grown extensively in Michigan for the past four years and now stands at the top of the list as a shipper. It is just the right size so it may be served in halves. Average weight $1\frac{1}{2}$ lbs. Flesh deep orange, extremely thick, fine grained, of the very best quality and very sweet and melting. You will make no mistake in planting this variety. It is a money maker for market gardeners and few, if any, are its equal for the home garden. It is a marvel of productiveness and all planters who try this melon once want it again. **Pkt., 10c; oz., 15c; $\frac{1}{4}$ lb., 45c; lb., \$1.50; postpaid.**

Banana Muskmelon

This melon surpasses all others in its delicious fragrance. The flesh (the melon being nearly solid) is of a rich salmon. The quality is excellent when the melon is thoroughly ripe. It grows from 18 to 36 inches in length and from 2 to 4 inches thick, and is very prolific. It looks almost like an overgrown banana and smells like one. Has a flavor all its own. Don't fail to try it. **Pkt., 10c; oz., 15c; $\frac{1}{4}$ lb., 45c; lb., \$1.50; postpaid.**

New Winter Watermelon

The fine keeping quality of this variety, apart from its palatable edibility, makes it a special favorite, and gives it a special place. In a cool place it keeps long into the winter and retains its delicious sweetness and flavor. It is early (ripens about the same time as "Sweetheart," if planted the same time), so should not be planted too early if wanted for winter use. It is very prolific. The flesh is

red, extremely firm, almost as hard as citron, very brittle, but deliciously sweet. Skin is very light green, almost white; its shape round. Our Winter Watermelon comes the nearest to perfection of any yet introduced, and we believe it will please you if you want a winter variety. **Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c; lb., \$2.50; postpaid.**

Mammoth Prize Watermelon

Mammoth Prize or Improved Triumph is the largest Watermelon grown. Many grow from 100 to 150 lbs. On one vine, five melons were grown that weighed 152, 151, 148 $\frac{1}{2}$, 149 $\frac{1}{4}$ and 147 lbs. Think of it—five monstrous

melons on one vine, and the five weighing a total of 748 lbs. The seed we offer is extra select and should produce fine, sweet, juicy melons of excellent quality and enormous size. **Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 55c; lb., \$1.75; postpaid.**

Garden Huckleberry

Grows from seed the first year. A new fruit that cannot be excelled for Pies and Preserves. It is very prolific, yielding an immense crop of fruit. It is an annual and must be planted each year from seed. Grows and thrives in all climates and on all kinds of soil. The fruit grows

larger than the common Huckleberry or Blueberry. If cooked with apples, lemons or anything sour, they make the very finest jelly. You will be delighted and astonished with this easily grown and wonderful novelty. **Pkt., 10c; 3 pkts., 25c; 7 pkts., 50c; postpaid.**

Devil's Claw

The Devil's Claw, Unicorn or Martynia Plant is very ornamental, bearing beautiful flowers which are succeeded by large seed pods which, when young, are fine for pickling, the same as cucumbers, and delicious in soups, stews, etc. **Pkt., 10c; 3 pkts., 25c; postpaid.**

Delicious Squash

For table quality there is no other Squash that can be compared with Delicious in sweetness and richness of flavor, and for pies it has no equal. Excellent for fall as well as for winter use, keeping well until late in the spring. The fruits are of medium size, usually weighing from 5 to 10 pounds. The rind is dark green, mottled in lighter shades. The dark orange flesh is very thick and fine grained. We consider it the best Squash grown. **Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 45c; lb., \$1.50; postpaid.**

Delicious Squash

Garden Huckleberry

Burgess' Chinese Giant Pepper

The Largest and Best Sweet Pepper

The enormous size, magnificent appearance and superior flavor make it by far the leading large mild Pepper. Our Chinese Giant produces uniformly monstrous Peppers; color deep green when fruit is young, and brilliant scarlet when matured; flesh exceptionally thick; flavor very mild. They grow 4 to 5 inches broad and are of equal length. The plants are well branched and thickly set with enormous fruits. Only a few days later than Ruby King and other medium and small size varieties. Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ lb., \$1.50; lb., \$5.00; postpaid.

Japanese Giant Radish

The Japanese Radish, or Daikon, as it is known in Japan, is the leading vegetable of Japan, being used as extensively there as the potato is here in America. It is not only eaten raw, but is cooked like Turnips. The Japanese Radishes are of excellent quality and always attract considerable attention on account of their monstrous size.

NERIMA LONG. An exceedingly sweet-flavored, long white radish. Grows 3 feet long; very crisp and brittle. Fine for all styles of cooking and excellent for pickles. One of the best for eating raw. Pkt., 10c; 3 pkts., 20c; oz., 35c; postpaid.

SAKURIJIMA. The largest variety of radish in cultivation. Often attains a weight of 15 lbs., and some grow to more than 30 lbs. Nearly round. A great curiosity and a radish of extraordinary quality. Flesh solid, firm and brittle, and of most excellent flavor. A favorite for fall and winter use, and a valuable winter feed for cattle and poultry. Every poultryman should plant some of them. Pkt., 10c; 3 pkts., 20c; oz., 35c; postpaid.

Northern Grown Peanuts

Just as good Peanuts can be grown in the Northern States as in the South, provided you plant Improved Early Spanish. Every one should plant at least a few for the children.

This is the earliest variety grown, and very productive. The pods are small, but remarkably solid and well filled with nuts of the very finest quality. Boys, here is a chance for you. Think of growing peanuts in your own garden and having plenty of them to eat. Shell nuts carefully so as not to break inside skin, and plant as soon as ground becomes warm, about 2 inches deep, in rows 3 feet apart, and from 8 to 10 inches apart in the row. Pkt., 10c; pt., 25c; qt., 40c; 3 qts., \$1.10; 6 qts., \$2.00; postpaid.

Northern Peanuts

Potato Seed Balls—One-Half Size

Chinese Giant Pepper

Ground Almonds

The Ground Almond, or Chufas, has a fine flavor, resembling the Coconut or Almond. The meat is snow-white, covered with a thin shell or skin of brown color. It grows close to the surface. Is very prolific, a single nut yielding from 200 to 300 nuts in a hill and will do well in any kind of soil. If the nuts are planted in the spring the same as potatoes a big crop can be expected about potato harvest time. They grow so rapidly and produce such immense crops that you will be surprised. Plant some for the children. Everybody likes them. Pkt., 10c; 3 pkts., 20c; ½ lb., 40c; lb., 75c; 3 lbs., \$2.00; 10 lbs., \$5.00, postpaid.

Ground Almonds

Hybridized Potato Seed

Seed from the Seed Balls. Your fortune may be in one of them. As easy to grow as tomatoes. Millions never saw a Potato Seed Ball. Thousands have tried in vain to get the seed. This seed will produce an endless variety of new kinds. It is from these that all valuable new varieties of potatoes are produced. Growing new and distinct Seedling Potatoes from the Seed-Ball Seed is intensely interesting. They will be the greatest curiosity of your garden. This seed will positively produce innumerable new kinds, colors, shapes, sizes and qualities. The product will astonish you. Some may be of immense value and bring you a golden harvest.

Mrs. Ellen Keener grew 101 potatoes from one packet of seed, each plant a different variety. J. H. Skinner raised 50 hills from one packet; 94 potatoes in one hill. C. E. Flint grew 115 different varieties from one packet—the finest he ever saw. Pkt., 15c; 2 for 25c; 5 for 50c; 10 for 90c, postpaid.

New Guinea Butter Vine

New Guinea Butter Vine

One of the Most Delicious of All Vegetables

We are offering planters another vegetable of real worth and merit. Nearly every one who has tried it speaks of it very highly. The New Guinea Butter Vine is a member of the edible gourd family and in growth is similar to the squash, and can be grown in the same manner or can be trellised up. It is wonderfully prolific, considerably more productive than squash and much easier to grow. The vines are always free from disease and insect pests, and really stand more neglect and abuse than any other vegetable vine we know of.

The fruits of the New Guinea Butter Vine grow to an enormous size, often 3 to 5 feet in length, but should be eaten when small, while the fuzzy growth is yet on. They can be cooked like Squash, fried like Egg Plant, pickled like Cucumbers, or cut up in small pieces and cooked with cream. When cooked with cream or fried it is most delicious, and if you would like to try something new this season, you will find that this vegetable is a most desirable addition to your garden.

The New Guinea Butter Vine is so productive that three plants will supply any ordinary family. If trellised up, the vines take up so little space, no garden is so small but that room can be found somewhere for at least two or three plants. One of our customers who tried it writes us that he cut 75 fruits from one vine, and that each fruit was from 2½ to 3 feet long. Pkt., 15c; 2 pkts., 25c; 5 pkts., 50c; postpaid.

Japanese Mammoth Turnip

SHOGIN MAMMOTH. The largest of all Japanese Turnips; frequently grow to more than 15 pounds. Round, pure white, very solid and sweet. The best keeper, a good table variety, and an excellent feed for cattle. Pkt., 10c; 3 pkts., 20c; oz., 35c; ¼ lb., \$1.10; lb., \$3.75, postpaid.

Vine Peach

In the West and Northwest, where fruit is scarce, the Vine Peach is becoming popular. It is easily cultivated, wonderfully prolific, and can be used in every way in which you would use a peach, excepting that it is not usually liked raw. The vine on which they are borne is somewhat similar to the muskmelon vine, and requires the same cultivation. The fruit is about the size of a large peach, and is of a bright orange yellow color, somewhat russety. A jar of these cut in halves and cooked in syrup presents a beautiful and tempting appearance. Pkt., 10c; 3 pkts., 25c; 7 pkts., 50c; postpaid.

Herb Seeds and Plants

They take up so little room, and as they are almost indispensable for savory cooking, a few should be planted in every garden. If they are to be used during the winter, the stalks should be cut on a dry day, when not quite in full bloom, and dried quickly in the shade. When dry they should be packed closely in air-tight boxes. Varieties marked with an asterisk (*) are perennial.

BASIL. Sweet. Leaves used for flavoring soups, stews and highly seasoned dishes. Pkt., 5c.

BORAGE. Leaves used for flavoring. Pkt., 5c.

***CARAWAY.** Seed used for flavoring pastry, meats, etc. Pkt., 5c; oz., 15c; ¼ lb., 40c.

***CATNIP or CATMINT.** Leaves and young shoots used for seasoning. Tea made from the dried leaves is good for colds and indigestion. Grown for the bee pasture and for cats. Said to be a "cure-all" for cat diseases. Pkt., 10c. Plants, 20c each; 3 for 40c; 12 for \$1.00; postpaid.

CHERVIL. Hardy annual, worthy of more general use for flavoring and garnishing. More beautiful than Parsley. Leaves used in soups and salads. Pkt., 5c; oz., 20c.

DILL. Leaves used for flavoring pickles, soups and sauces. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.35.

***FENNEL, Sweet.** The leaves, boiled, are used for fish sauces, and are beautiful for garnishing. The seeds are used for flavoring. Pkt., 5c.

***HYSSOP.** The flower summits and leaves are used as a remedy for asthma and catarrh. A stimulant, expectorant and mild tonic. Pkt., 5c.

***LAVENDER.** The leaves are sometimes used for seasoning, but the plant is chiefly grown for its flowers, which are used in the making of perfumes. The dried flowers and leaves are fine for perfuming dresser drawers and linen closets, filling soft cushions, etc. Pkt., 10c.

MARJORAM, Sweet. Leaves and ends of the shoots used for flavoring in summer, and also dried for winter use. Pkt., 5c.

***SAGE.** Leaves and tops used for seasoning and dressing. Pkt., 10c. Large plants, 50c each, postpaid. One plant is enough to supply an ordinary family.

***SPEARMINT.** From the leaves of this plant is distilled the spearmint oil which is used so extensively in the manufacture of chewing gum, etc. The leaves and stems are used for flavoring salads, garnishing meats, etc. No seed. Plants, 20c each; 3 for 40c; 12 for \$1.00; postpaid.

SUMMER SAVORY. Leaves and young shoots used for flavoring; especially for boiled string beans. Pkt., 5c.

***THYME.** Leaves and young shoots used for seasoning. A tea is also made from the leaves and used as a remedy for headache. Pkt., 10c.

***WINTERGREEN.** A pretty, low growing, evergreen plant with pretty pink, edible berries that are ready to eat before the snow leaves in the spring. Everyone who likes wintergreen flavor is fond of them. These plants will grow on a sour soil that is too poor for almost any other vegetation. No seed to offer. Plants, 20c each; 3 for 40c; 12 for \$1.00; postpaid.

***WORMWOOD.** Leaves used as a tonic and as a dressing for fresh bruises. Also beneficial for poultry. Pkt., 5c

Sage

Sweet Fennel

Dasheen, the Coming New Vegetable

300 to 900 Bushels Per Acre. The Potato's Only Rival

We call the Dasheen a new vegetable because it is new in this country, but in fact it has been grown for years in China, and is known in various parts of Europe and Asia.

The Dasheen is grown principally as a root crop, the tubers being used the same as Potatoes. The tubers sometimes reach a weight of more than 6 pounds each. One hill will produce on good, rich soil 6 or 8 pounds or more of tubers, and in rare instances 20 to 26 pounds of Dasheens have been taken from a single hill. Crops of 600 to 900 bushels per acre have been produced.

The U. S. Department of Agriculture report 1,400 bushels from less than 5 acres in Florida, and on their different experimental grounds have secured yields of 450 bushels to the acre.

Mr. A. I. Root, editor of "Gleanings in Bee Culture," has this to say regarding the Dasheen: "Although the Dasheen is still mostly confined to the South, yet I might say that we are now growing our third crop here in Northern Ohio, and I feel more and more satisfied that it can be grown profitably all over our Northern states; and will ultimately prove to be one of our most nourishing and toothsome vegetables."

The "Country Gentleman" published the following regarding it: "Not only does the Dasheen promise well as a market crop once the public generally has recognized its merits, but in the meantime it is capable of furnishing food for home consumption. Its food value is higher than the potato, and about fifty per cent more protein and fifty per cent more starch. The flavor of the Dasheen is decidedly richer and more tempting than that of the potato."

Land that is too wet for ordinary crops can be used to advantage in growing Dasheens. They can be grown on lands that are subject to short overflows that would ruin most other crops, thus making much land available for food crops that is now considered worthless. They may also be successfully grown in hot, dry regions as has been demonstrated by tests in Arizona and in the desert regions of Southern California.

The Dasheen can be used in almost any way that Irish Potatoes or Sweet Potatoes can be used. They are excellent when baked, boiled, fried, creamed, stuffed, meat filled or scalloped, and for Saratoga Dasheen Chips and Fritters they are delicious.

Dasheen crisps, made from raw Dasheen with a fluted vegetable slicer and fried in deep fat, are declared by some epicures to be the most delicious of all Dasheen dishes. The delicate, nutty flavor of the Dasheen is accentuated by this method of preparation.

As a filling for fowl and other meats the Dasheen can hardly be surpassed. Served au gratin, that is, cooked with grated cheese, it is equal to any similar dish. It makes a delicious salad and may be French fried or German fried like potatoes.

The young leaves of the Dasheen make excellent greens, used like Spinach.

The stems, when grown under a box or barrel, so as to be bleached, are equal to Asparagus. The Department of Agriculture says: "The shoots are very tender and have a delicate flavor, suggestive of mushrooms. There are probably few plants so well suited for forcing purposes as the Dasheen." Experiments carried on by the Battle Creek Sanitarium, at Battle Creek, Mich., indicate that 5 to 8 crops of these shoots can be harvested.

DASHEENS AS STOCK FEED. The United States Department of Agriculture, in their year book, have the following to say regarding the Dasheen as a stock food: "Although extensive feeding experiments with the Dasheen have not yet been made, as a stock feed it is probably equal in value to the potato, sweet potato, or cassava. They seem, in the raw state, to be more palatable to stock than potatoes and, while doubtless less palatable than sweet potatoes, they contain a higher proportion of protein to starch and sugars than sweet potatoes. Both cattle and hogs eat them with a relish after getting the taste, and pigs 8 months old have been fattened for the market in a month by turning them in the autumn into a patch of Dasheens."

Planting should be done as early in the spring as conditions of soil and climate will permit. For field culture the tubers are planted singly and entire, not more than 2 to 3 inches deep in hills 3 feet apart, the distance between rows being 4 feet. This will permit horse cultivation. In cultivating during the summer the soil should be gradually drawn to the plants and the ground kept free from weeds, but require little cultivation after large enough to shade the ground.

In growing Dasheens there seems to be no disease or insect enemy to contend with, as there is in growing potatoes. No dreaded potato bugs to be poisoned; no rot, scabs, blight, mildew or other trouble.

The leaves are large and very ornamental, resembling closely the Caladium Esculentum, or Elephant's Ear. Every town and city garden should plant a few of these interesting plants to see what the people in other parts of the world raise for food.

The Dasheen is sure to be a "gold mine" for growers in all parts of the country where the season is not too short. While we would not recommend it as a big money maker for the North, we surely consider it worthy of a place in every garden. If you haven't room to give them a trial in your garden, you can at least plant a few for ornamental purposes and at the same time find out what they are like. You will find them one of the finest vegetables and most showy ornamental foliage plants. As our stock of tubers is limited, we recommend that you send your order early.

Choice seed tubers, 3 for 40c; 6 for 75c; 12 for \$1.25; 25 for \$2.00; 50 for \$3.75; 100 for \$7.00; delivered to you prepaid. Pamphlet giving cultural directions and recipes for preparing and cooking the Dasheen, free with each order.

A 5-Lb. Dasheen Tuber

Corn Salad

This is a hardy winter salad, the leaves being served like lettuce during the cool fall and early winter months. It is used also for garnishing meat dishes in the same manner as parsley. The seed should be sown thinly in drills during August or September, to supply fresh leaves during the cool fall and winter months. It is quite hardy, and after cool weather sets in can be protected by a thin mulch of soft hay or straw. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25; postpaid.

Kohl-Rabi (Turnip Rooted) Cabbage

Early White Vienna is a very select, extra-early strain. The flavor of the young roots when they are 2 to 3 inches in diameter is distinctly sweet. The flesh is firm but cooks very tender, retaining a desirable amount of crispness. This variety is considered the finest of all, resembling Cauliflower in flavor. For a continuous supply sow every 2 weeks up to the middle of July. Pkt., 10c; oz., 20c; ¼ lb., 60c; lb., \$2.00; postpaid.

Giant Washington Asparagus

\$400.00 to \$600.00 Per Acre Growing the New Rust Resistant Variety

Giant Washington Asparagus

GIANT WASHINGTON. A wonderful new variety developed by the United States Department of Agriculture. It is the only rust resistant variety of Asparagus grown. It is a fast growing variety with a delicious flavor and tenderness, yielding stalks two inches in diameter, and even when twelve inches long are perfectly tender. Tests in all parts of the country have proven conclusively that the new Giant Washington is superior to any other variety and the best yielder. Pkt., 10c; oz., 30c; ¼ lb., 90c; lb., \$3.00; postpaid.

PALMETTO. Another excellent variety and, with the exception of Giant Washington, is the nearest rust proof of any. It is a wonderful yielder, producing large, thick, dark green shoots, nearly as large as Giant Washington. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00, postpaid.

COLUMBIAN MAMMOTH WHITE. The best white sort; mammoth in size. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25, postpaid.

We always recommend one year old plants, as they are the best size for transplanting, make better plants, and come into bearing as soon as the two year old plants. We have, however, a limited number of two year old plants which we can supply at the same price, as long as they last, to those who want them.

PRICES OF ASPARAGUS PLANTS

GIANT WASHINGTON. 12 for 50c; 25 for 75c; 50 for \$1.25; 100 for \$2.00; 250 for \$4.50, by parcel post, postpaid. By express, not prepaid, 500 for \$6.50; 1,000 for \$12.00; 5,000 for \$55.00.

PALMETTO. 12 for 35c; 25 for 50c; 50 for 80c; 100 for \$1.50; 250 for \$3.50; by parcel post, postpaid. By express not prepaid, 500 for \$5.50; 1,000 for \$10.00; 5,000 for \$45.00.

COLUMBIAN MAMMOTH WHITE. Same price as Palmetto.

Early Giant Rhubarb

Our Early Giant is mammoth in size, and the best and earliest variety. It is the first vegetable from the ground in the spring and the easiest of all perennial plants to grow. A half dozen plants will supply a large family during the season, and plants well established will last for years. There always is a big demand and as a money maker with very little work and expense, we recommend Early Giant Rhubarb. We offer a fine stock of roots this season. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.25; by parcel post, postpaid. By express, not prepaid, \$4.50 per 50 or \$8.00 per 100.

We always recommend the planting of Rhubarb roots instead of seed, but if seed is wanted, we can supply seed of the genuine Early Giant at 10c per packet; 30c per oz.; 90c per ¼ lb.; or \$3.00 per lb., postpaid.

Burgess' Frost-Proof Cabbage Plants

**Mature Heads 2 to 3 Weeks Earlier than Home Grown
Plants and Double Your Profit**

These plants are grown for us in the open field in the South, where the soil and climatic conditions are just suited for growing tough, hardy cabbage plants during the winter and early spring. The plants make a slow but steady growth, until at 8 to 10 weeks of age they are very tough and hardy, the buds are purple and the outer leaves a reddish brown. When in this condition they can be shipped to territory farther north and be planted in the open ground a month or six weeks sooner than the home grown hot bed or cold frame plants. These Frost-Proof Cabbage Plants will stand a temperature of 20 degrees above zero.

The top of the plant does not grow until regular spring weather opens up, but the roots grow from the time they are planted, and just as soon as spring weather starts the plants begin growing rapidly, maturing headed cabbage 2 to 3 weeks earlier than you can mature them from hot bed or cold frame plants. You know what the difference in profit will be if your crop is matured and marketed before the general crop from home grown plants is matured.

Frost-Proof Cabbage Plants must be planted a month or six weeks earlier than you would plant home grown plants. The plants when received will be somewhat wilted and have a stunted appearance, which will be disappointing to persons who have never used these plants before. Regardless of appearance, they will produce the crop results. We offer the following varieties only: Early Jersey Wakefield, Charleston Wakefield, Copenhagen Market, Succession and Early Dwarf Flat Dutch. These plants can be supplied by us from December 1st to May 1st, only.

PRICES: 100 plants for 75c; 200, \$1.35; 300, \$1.85; 400, \$2.30; 500, \$2.75; 600 or more, 50c per 100; 1,000 or more, 45c per 100, by parcel post, postpaid. No order filled for less than 100 plants. These prices are for even hundreds of one variety. If you order 200 of one variety and 300 of another you would pay at the 200 and 300 rate; not the 500 rate. In lots of 1,000 or more, by express, we can make a price of \$2.00 per 1,000; or 2,000 or more at \$1.75 per 1,000, f.o.b. our growing station. Order early and give date you want plants shipped. For prices of Cabbage seed see pages 12 and 13.

Early Giant Rhubarb

KUDZU

THE GREAT FORAGE CROP

Kudzu gives promise of being one of the leading sources of wealth to farmers and stock growers. It is a wonderful perennial legume, and is perfectly hardy. It outyields alfalfa on poor land; succeeds on land too poor for alfalfa; and does not have to be fertilized or limed. It is adapted to every class of well drained soils, and will succeed on practically any land not water-soaked and not a desert. It enriches poor soil more rapidly and more permanently than it can be improved in any other way, and will transform non-productive, barren hillsides into a main resource of the farm. Poor, worn out land planted to Kudzu soon becomes like the rich soil that has been recently cleared from the virgin forest. The soil becomes richer every year, and the deep roots live to a great age and become stronger and more vigorous as the years pass by. The roots penetrate so deeply as to make it proof against dry weather.

Kudzu contains more protein than wheat bran—as high as 19.82 per cent and averaging 17.43 per cent. A remarkable feature is that although the hay is richer than alfalfa, yet it is not injurious to horses and is perfectly safe for all stock, when fed either green or dry. Does not cause sickness of animals even when overfed; when fed to cows it will produce more milk and richer milk than any other one feed; and makes a good permanent pasture.

Kudzu hay does not have to be cut at any certain time to save it, and may await the convenience of the farmer. It cures the quickest of any known hay, and the leaves do not drop off. It can be harvested when weather conditions are unfavorable for other hays and will yield a fine quality of hay, often when continued showers and dampness would mean ruin to any other legume hay. Kudzu hay becomes almost like fresh foliage again when moistened, and makes an excellent green ration for poultry, rabbits and all kinds of stock, in the winter.

Kudzu springs up from the roots when the first warm days come in the spring and grows vigorously until a killing freeze comes in the fall. Two cuttings can be made each year in the North and four in the South. Instances are known where four cuttings of hay averaging 2½ tons per cutting and making a total yield of ten tons per acre in a single season, have been made.

Kudzu should be given cultivation the first season. A full crop of corn or a good crop of potatoes, or any other similar crop, may be raised on the same land the first year, so the farmer does not lose the use of the land. After the first year no cultivation is needed, as the vines will run all over the ground the next season and take root at the joints, growing so rapidly as to choke out all other plants (even such pests as Johnson and Bermuda grasses), yet it is an easy matter to get rid of Kudzu if desired, for it has a peculiar habit of neither blooming or bearing seed under field culture, and the plants will only sprout from the crowns and can be killed by cutting off these crowns with a disk plow in hot, dry weather. When the crowns of Kudzu roots are cut off and exposed to sun-

shine for half a day or so they are killed, and the roots decay. Another method of eradicating Kudzu in case one desires to put a field back to intertilled crops, is to plow late in the fall, and plant the following spring to corn, beans, potatoes or any crop that can be given careful cultivation. While Kudzu is harder and will stand more severe winters than ordinary alfalfa, and more abuse than most any other plant we know of, it is much more easily eradicated than alfalfa if one wants to get rid of it. Kudzu absolutely can not become a weed pest.

Kudzu is a native of Japan, where it is a leading hay crop. So far as we have been able to learn, it has given the best of satisfaction wherever tried. One farmer who has given it a good trial says: "In my thirty-five years experience in farming in different states, and with various hay crops, I have never seen a hay that cured so quickly, held its leaves so well, or kept its color so perfectly under various conditions as Kudzu does. It does not require lime, as is the case with alfalfa and some other legumes. It does not require a rich soil, and so far as our experiments have gone the past ten years, fertilizing is not only unnecessary but unprofitable. I have had plantings in which some were located in the very poorest of soils—soils that would not produce corn, melons, or even cow peas—and with the exception that young plants did not start off quite so readily on these poor spots, no one could tell the difference at the end of the second season."

Growers are now propagating it almost entirely by transplanting young plants from old Kudzu fields, owing to the fact that the seed is very scarce and does not germinate readily in the open ground. They prepare the ground the same as for a crop of corn, and then check off into rows 10 feet apart each way, setting a plant at each check. While it is a common, everyday matter for a man to set out a number of acres of cabbage, tomato, tobacco or sweet potatoes, setting each plant by hand, it is rather a shock at first to consider putting out a hay or pasture field in this manner. When we come to scrutinize this objection, however, it seems to vanish in thin air, for the common practice of setting the plants ten feet apart calls for only about 450 plants to the acre. This is a job not nearly so expensive as seeding an acre of alfalfa; especially is this so when we take into consideration the thorough preparation necessary for alfalfa and the cost of liming and manuring or fertilizing the field as is the common practice.

We have a limited supply of both seed and plants to offer this season. All Kudzu seed sold by us is put up in sealed packages and guaranteed to be the best that can be produced. The plants we offer are strong, self inoculated, field grown roots of the best hay making strain. The setting of such plants insures getting a good start with this wonderful forage plant without delay, and the plants will multiply rapidly when once well established.

PRICE OF KUDZU SEED

packages to a person, as we haven't enough to go around.

Per package, 25c; 5 packages, \$1.00; 12 packages, \$2.00; 20 packages, \$3.00; 35 packages, \$5.00; postpaid. Not more than 35

Inoculation

If you plant Kudzu seed it should be inoculated, for best results. We can supply you with enough inoculated soil to properly inoculate the seed you buy from us (enough for 35 packages of seed or less), for only 25c. If you buy roots no inoculation is needed.

Kudzu Plants

12 for \$1.50; 25 for \$2.75; 50 for \$5.00; 100 for \$9.00; 450 (enough to set an acre), \$35.00. Plants delivered prepaid, to any part of the United States, at these prices, and all plants guaranteed to be healthy, hardy, self-inoculated, field grown roots.

WE PAY THE POSTAGE OR EXPRESS CHARGES on everything listed in this catalog, unless otherwise stated.

READ OUR GUARANTEE on page 2. Also read on page 1 what leading business men in our town have to say about us.

ALPHABETICAL LIST

VEGETABLE SEEDS

We Pay the Postage, Express or Freight

Burgess' Guaranteed Seeds are the Best for All Climates

We don't offer as many varieties as some seedsmen, as we weed out the poorer sorts, and offer only the best. The average seed catalog lists many things that nobody would want if they ever tried them.

We don't advertise one variety under several different names, giving different descriptions to each.

We don't charge robbery prices; neither do we sell seeds at lower prices than good seeds can be grown. Our aim is to reduce the price whenever we can do so without reducing the quality, but we never reduce the quality. If you are offered seeds at lower prices than the prices charged by us you can be sure the quality is not up to our standard, for best quality seeds can't be sold below our prices. Read our guarantee on page 2.

All seeds Delivered Postpaid at These Prices.

Half pounds supplied at pound rates.

Beans

Prices by the half-peck, peck and bushel furnished on application.

DWARF SORTS

	Pkt.	Oz.	½ Lb.	Lb.
Challenge Dwarf Black Wax. Earliest wax podded bean. Best first-early sort for the home garden. Pods fleshy; finest quality10		\$.15	\$.45
"Chestnut" Bean (See page 4)15			
Chinese Salad Bean. Chinese Bean Sprout Salad Bean. (See page 4) ..	.10			
Davis White Wax. Very Productive; valuable variety for canning, as the beans are pure white10		.15	.45
Improved Golden Wax. Heavy cropper; excellent variety10		.15	.45
Wardwell's Kidney Wax. A most profitable market sort. Desirable for every climate10		.15	.45
Burpee's Stringless Green Pod. The earliest bean. A leading green podded sort everywhere. Entirely free from strings10		.15	.45
Refugee, or 1,000 to 1. Best and most productive green podded bean ..	.10		.15	.45
Improved Michigan Pea or Navy. The best white field bean. A sure cropper and the heaviest yielder10		.15	.40
Burpee's Improved Bush Lima. Mammoth seeded. Best quality,10		.15	.40
Henderson's Bush Lima. The earliest Lima grown, and will produce an abundant crop under a wider range of weather and soil conditions than any other Lima10		.15	.45

POLE OR RUNNING SORTS

Burpee's Everbearing Kentucky Wonder. (See page 4)10		.15	.45
Scarlet Runner. A fine ornamental vine, bearing large sprays of bright scarlet pea-like flowers and abundance of edible beans10		.17	.50
King of the Garden Lima. Largest; most productive10		.15	.45
Leviathan Lima. The earliest large-seeded Lima. A sure cropper, and so productive that only a few hills will supply a big family....	.10		.15	.45
Yard Long. (See page 4)10		.50	1.50

Beet

Crosby's Egyptian. (Selected Strain). Best extra early variety05	.10	.30	.90
Detroit Dark Red. Unsurpassed for main crop. A favorite for canning. Rich, extra deep dark red color. Sweet and tender.....	.05	.10	.30	.90
Early Blood Turnip. Early, round, deep red beet of excellent quality.05	.10	.30	.90
Early Eclipse. Excellent quality and very popular05	.10	.30	.90
Long Dark Blood. The leading variety for winter use05	.10	.30	.90
Spinach Beet (Improved Mammoth Swiss Chard). Grown extensively for its large, juicy, tender leaves and leaf stalks. The leaves grow to a length of 2 to 2½ feet, and the stalks are nearly as thick and broad as Rhubarb and never get tough. By picking off the large outside leaves, as wanted, more leaves continue to grow and keep right on growing until killed by severe frost in the fall. The whole leaf can be used for greens, or the leaf stalks can be cooked like asparagus05	.10	.30	.90

SUGAR BEETS AND MANGEL WURZELS

Giant Half Sugar. For stock feeding05	.10	.25	.70
Golden Tankard. For stock feeding05	.10	.25	.70
Klein Wanzleben. The best sugar beet05	.10	.25	.70
Mammoth Long Red. For stock feeding05	.10	.25	.70

Brussels Sprouts

Improved Half Dwarf. The best variety for all localities05	.20	.60	2.00

Early Jersey Wakefield. Our Special Stock. Earliest oblong-headed Cabbage of good quality. Heads hard and solid05	.25	.75	2.50
Early Spring. Earliest flat-headed sort. Very small05	.25	.75	2.50
Early Winnigstadt. One of the best second-early pointed sorts. Also planted quite extensively as a late cabbage05	.25	.75	2.50
Fottler's Early Brunswick. The greatest sauerkraut cabbage05	.25	.75	2.50
Glory of Enkhuizen. Ten days later than Jersey Wakefield, but heads twice as heavy. Heads round and very solid; similar in appearance to a small Danish Ballhead05	.30	.90	3.00
Golden Acre. The earliest round head cabbage. (See page 4)15	.70	2.25	7.50
Succession. Popular second-early sort; an excellent keeper05	.25	.75	2.50

All-Head Early Cabbage

Cabbage, Late Sorts

Chinese Celery Cabbage. (See page 4)10	.30	.85	2.75
Danish Ballhead. Hard, solid heads; the best keeper05	.25	.75	2.50
Improved American Drumhead Savoy. The best Savoy Cabbage. Crimped leaves; more tender, milder and sweeter than the smooth-leaved varieties. Give this cabbage a trial05	.30	.90	3.00
Jumbo. The largest cabbage grown. 20 to 30 lbs. each10	.40	1.25	4.00
Mammoth Rock Red. The best red cabbage05	.30	.90	3.00
Premium Late Flat Dutch. The most popular late cabbage05	.25	.75	2.50
Surehead. Remarkable for its certainty to head05	.30	.90	3.00
Volga. An exceedingly valuable variety to grow in the South and West. Matures a little quicker than most late cabbage, so should be planted a little later. It is the nearest "worm proof" of any sort, as it grows fast and makes a solid head which the worms don't enter05	.30	.90	3.00

I. A. D. Savoy Cabbage

Carrot

Danvers Half Long. Popular variety for all soils05	.15	.45	1.35
Improved Long Orange. Succeeds best in light soil. Excellent keeper05	.15	.40	1.20
Oxheart. The best for heavy soil05	.15	.45	1.35
White Belgian (Improved Mammoth). Superior to any other sort for stock feeding. Excellent for horses and cattle05	.10	.30	.90

Danvers Half Long Carrot

Cauliflower

Quarter and half ounces of Cauliflower seed at ounce prices

Early Snowball. Earliest variety. Our extra select strain.....	.15	2.00	6.50	21.00
Extra Early Dwarf Erfurt. A little later, but larger15	1.50	5.00	16.00
Dry Weather. Will grow in hot, dry districts where it is difficult to grow other varieties. Extra select pedigreed seed.....	.15	2.25	7.50	24.00
Veitch's Autumn Giant. Large, late variety10	.65	2.00	6.50

Celery

Dwarf Golden Heart. A leading main crop variety05	.25	.75	2.50
Giant Pascal. Best of all for late fall and winter use, but too brittle to stand shipping any distance05	.25	.75	2.50
Golden Self-Blanching. The leading early variety10	.40	1.25	4.00
White Plume. Earliest celery known05	.25	.75	2.50
Winter Queen. Best keeper of all. Excellent quality05	.25	.75	2.50
Turnip Rooted (Giant Prague). Excellent for salads and flavoring05	.25	.75	2.50
Old Celery Seed for Soups and Flavoring. Low germination, so unfit for planting. Clean seed.10	.20	.60

Chicory

Large Rooted. The roots are used quite extensively as a substitute for and an adulterant of coffee; also as a feed for rabbits10	.25	.75	2.50
Witloof. Excellent for winter salads. (See page 4)10	.25	.75	2.50

Chives

Chives, or Schnittlauch. Hardy perennial; grown for the young leaves, which are used for giving a mild onion flavor to salads and various other dishes. (3 pkts., 25c)10			
---	-----	--	--	--

Collards

Georgia. A form of loose-headed cabbage, very largely used as greens in some parts of the country, especially in the South05	.15	.35	1.00
---	-----	-----	-----	------

Early Snowball Cauliflower

Sweet Corn

Prices by the half-peck, peck and bushel furnished on application.

Adams Extra Early. The hardiest and earliest corn for table use. It is not a sweet corn but on account of its earliness it is extensively planted both by the market gardener and for home use. It is sweet and tender, and very productive10	.15	.40	
Country Gentleman. Late. Long kernels without rows. Excellent sort to grow where worms bother the ears, for instead of working a row into the center of the ear, they have no row to follow, and work around the end of the ear10	.15	.45	
Golden Evergreen. The finest and sweetest corn ever introduced. A cross between Stowell's Evergreen and Golden Bantam, possessing all the splendid qualities of both of these popular varieties and better than either. Later than Golden Bantam and earlier than Evergreen10	.17	.50	
Improved Golden Bantam. Best early sweet corn grown10	.15	.45	
Mammoth White Cory. The earliest sweet corn of first class quality..	.10	.15	.40	
Stowell's Evergreen. Leading main crop variety10	.15	.40	

Golden Evergreen

White Rice Pop Corn

Earlibest Cucumber

Black Beauty Egg Plant

American Flag Leek

Big Boston Lettuce

Pop Corn

	Pkt.	Oz.	¼ Lb.	Lb.
Australian Hulless. Also known in some sections as Japanese Rice. Little short ears, nearly as thick as long. Almost hullless10		\$.15	\$.40
Black Beauty. Earliest; most productive; finest flavored Pop Corn	.10		.15	.40
Queen's Golden. One of the best and most prolific; large ears; excellent quality; profitable variety to grow for the market. When popped, kernels expand to a diameter of nearly an inch10		.15	.40
White Rice. The standard variety08		.12	.35

Cress

Extra Curled. A salad plant that should be grown in every garden..	.05	.10	.30	.90
True Water Cress. For planting in springs or running water10	.50	1.50	5.00
Upland. Same flavor as Water Cress. Grows on high, dry land. As easily grown as spinach or lettuce. Hardy perennial that can be grown for several years without replanting10	.35		

Cucumber

Burgess' Earlibest. Earliest Cucumber grown. Excellent quality10	.20	.60	2.00
Chinese. (See page 5)10			
Everbearing. Vines bear continuously05	.15	.45	1.50
Giant Pera. A new variety of exceptional quality, that under good cultivation frequently grows 15 to 20 inches in length. Crisp, brittle, unusually mild flavor, and but very few seeds. None better for slicing05	.15	.45	1.50
Improved Early White Spine. A popular variety05	.15	.45	1.50
Improved Long Green. A favorite in some localities10	.20	.60	2.00
Japanese Climbing. A good variety to plant to save garden space..	.10	.20	.60	2.00
Klondike. A choice early variety. One of the very best05	.15	.45	1.50
Lemon. A real Cucumber, similar in shape to a lemon and when ripe has the color of a ripe lemon. Excellent for pickling, either green or ripe, and for slicing just as the fruits are turning yellow. Will yield four times as many Cucumbers as any other variety10	.20	.60	2.00
New Perfected Davis Perfect. (See page 5)10	.20	.60	2.00
Westerfield's Chicago Pickling. The variety used by the leading pickle houses. Not extra for slicing, but the best for little pickles.....	.05	.15	.45	1.50
West India Gherkin. Small, oval-shaped, prickly fruit; used exclusively for pickling; very prolific10	.20	.60	2.00
White Wonder. (See page 5)10	.25	.75	2.50

Egg Plant

Black Beauty. The best variety grown. Early and productive.10	.60	1.80	6.00
Chinese Wonder. Fruits 15 to 25 inches in length. Flesh tender and very few seeds. A useful vegetable and ornamental plant.....	.10			

Endive or Winter Lettuce

Extra Curled. One of the most refreshing of all autumn and winter salads. May be grown any season of the year, but is more generally used late in the fall. Blanched by tying up the leaves in a conical form for about 10 days before using. Dr. Finck, an authority on foods, recommends it as a food for persons suffering from indigestion05	.15	.45	1.50
Self-Blanching. The finest of all, Does not need tying up10	.20	.60	2.00

Kale, or Borecole

Dwarf Scotch. The best variety. Hardier than Cabbage, and excellent for greens for winter and spring use.05	.15	.40	1.25
---	-----	-----	-----	------

Leek

Broad American Flag. The finest variety grown; very hardy. Best for winter and spring use. Mild and sweet10	.20	.60	2.00
--	-----	-----	-----	------

Lettuce

Beefsteak. (See page 5)10	.25	.75	2.50
Big Boston. The best head lettuce for forcing under glass, and one of the best for outdoor planting. Produces large, solid heads, often 10 to 12 inches across. Excellent quality; sure to head..	.05	.20	.55	1.75
Black Seeded Simpson. The most popular curled or loose-leaved sort for early outdoor planting05	.20	.50	1.65
Burgess' Improved Cos or "Celery" Lettuce. (See page 5)10	.25	.70	2.25
California Cream Butter. Large, solid heads; rich and buttery05	.20	.50	1.65
Grand Rapids Forcing. The best loose-leaved sort for forcing under glass and an excellent variety for outdoor planting05	.20	.50	1.65
Improved Hanson. Will stand more hot weather than any other sort, excepting "Celery" Lettuce. Immense solid heads.05	.20	.50	1.65
May King. The earliest head lettuce grown. Excellent quality05	.20	.50	1.65
New York, or Los Angeles. The best head lettuce. (See page 5)10	.25	.75	2.50
Chisha. Chicken Lettuce, or Rabbit Lettuce. (See page 5)10	.50	1.50	5.00
Prize Mixture. Leading varieties mixed05	.10	.30	.90

Muskmelon

Banana. (See page 6)10	.15	.45	1.50
Emerald Gem. None better for home use, but is too soft to stand shipping. Salmon fleshed. Extra early05	.15	.40	1.25
Fordhook. Equals Emerald Gem in flavor, and will carry to market even better than the famous Rocky Ford. Extra early. Salmon fleshed05	.15	.40	1.25
Hearts of Gold or Hoodoo. (See page 6)10	.20	.55	1.75

Muskmelon—Continued

	Pkt.	Oz.	¼ Lb.	Lb.
Honey Dew. One of the most delicious and popular melons.....	\$0.05	\$0.20	\$0.55	\$1.75
Jenny Lind. The sweetest of all green-fleshed melons. Extra early..	.05	.15	.40	1.25
Montreal Nutmeg. The best of the large sized green-fleshed melons. Often weighs 15 to 20 pounds, melting and delicious flavor, good shipper and commands the highest price on the city markets	.05	.15	.40	1.25
Osage or Miller's Cream. The favorite late variety. Fruits large, salmon flesh, thick, fine grained and highly flavored. A good shipper, and always in demand05	.15	.40	1.25
Rocky Ford. The most famous muskmelon05	.15	.40	1.25
Salmon Fleshed Rocky Ford. The most desirable type of Rocky Ford melons. The flesh is very deep, solid, ripens clear to the rind, has a very small seed cavity and is lusciously sweet and melting. Rust resistant and the best cropper of them all05	.15	.45	1.50

Watermelon

Alabama Sweet. A popular variety in the South05	.10	.30	.90
Cole's Early. The earliest melon grown. Small in size, but what they lack in size they make up in number05	.10	.30	.90
Early Fordhook. Earliest large fruited melon. Deliciously sweet05	.10	.30	.90
Golden Honey. Excellent yellow-fleshed variety. Sweet as honey....	.10	.15	.45	1.50
Halbert Honey. Correctly named. Delicious.05	.10	.30	.90
Harris' Early. The best extra early shipping melon. Larger and tougher rind than Cole's Early05	.10	.30	.90
Irish Grey. A new variety, that will produce more good marketable melons than any other variety we know of. Size uniformly large; rind grey in color, and tough; red flesh; unusually sweet and of best quality. Ripens earlier than Tom Watson and will keep in good condition for a long period. One of the best varieties for the home market and for shipping05	.15	.40	1.25
Kleckley's Sweet or Monte Cristo. Has the reputation of being the sweetest melon grown. On account of its thin rind it is not recommended for shipping05	.10	.30	.90
Mammoth Prize. Largest melon grown. (See page 6)10	.20	.55	1.75
Peerless or Ice Cream. An excellent sort for home garden05	.10	.30	.90
Sweet Heart. Large round melon. Good shipper05	.10	.30	.90
Tom Watson. Often weighs 50 to 60 pounds, and averages on good soil over 30 pounds. A melon of superb quality. The rind is not thick, but it is hard and tough, so that it is unsurpassed as a market and shipping sort05	.10	.30	.90
Winter. Keeps until late in the winter. (See page 6)10	.25	.75	2.50
Citron. (For Preserves)05	.15	.40	1.25

Fordhook Muskmelon

Cole's Early Watermelon

Imp. White Velvet Okra

Mustard

Southern Giant Curled. The true curled leaf variety. Ready for use in six weeks from sowing05	.15	.35	1.10
White London. Seeds white; preferred by housewives for pickling...	.05	.10	.25	.75

Okra

Improved White Velvet. The best variety. Popular in the South, and can be easily grown in the North. Young seed pods fine for soups, etc.05	.10	.25	.75
---	-----	-----	-----	-----

Onion

Australian Brown. Extremely early; mild flavor; good keeper, having been kept in fine condition for a year after harvest05	.35	1.10	3.75
Extra Early Red. Earliest red onion grown10	.50	1.50	5.00
Extra Early Barletta. Very small white pickling onion10	.50	1.50	5.00
Large Red Wethersfield. The standard main-crop dark red variety..	.10	.50	1.50	5.00
Mammoth Silver King. The largest white Onion. Unsurpassed for tenderness and mildness of flavor10	.60	2.00	7.00
Prizetaker, or Mammoth Spanish. One of the largest, and the most handsome yellow Onion; the mildest of all.10	.60	2.00	7.00
Southport Red Globe. The best round red Onion10	.60	2.00	7.00
Southport White Globe. Extra select; the best round white onion ..	.10	.70	2.30	8.00
Southport Yellow Globe. A favorite among onion growers10	.70	2.30	8.00
White Portugal or Silverskin. The standard flat white variety.....	.10	.50	1.50	5.00
White Welsh. Best for early green onions. (See page 3)10	.45	1.35	4.50
Yellow Globe Danvers. The most popular yellow onion10	.70	2.30	8.00

White Portugal Onion

Parsley

Champion Moss Curled. Finest and most handsome variety05	.15	.40	1.25
Turnip Rooted. The edible portion of this variety is the fleshy root, which resembles a small parsnip. Excellent for flavoring soups, stews, etc.05	.15	.40	1.25

Parsnip

Improved Hollow Crown. The best variety05	.15	.35	1.00
--	-----	-----	-----	------

Peas

Prices by the half-peck, peck and bushel furnished on application.				
Alaska. Earliest Pea grown. Excellent quality; exceedingly productive. Can be planted as soon as ground thaws out in the spring.	.10	.15	.40	
American Wonder. One of the finest early Peas grown10	.15	.45	
Burgess' Drought Proof. (See page 3)10	.20	.60	
Champion of England. Tall late sort; very productive; large pods, well filled with peas of the finest quality10	.15	.45	
Dwarf Gray Sugar. Best Edible-Podded variety. Cook pods and all like snap beans. Be sure to plant some. You will like them....	.10	.15	.45	

G. H. C. Parsnip

Peas—Continued

Little Marvel Peas

Early Bird Radish

M. S. I. Salsify

New Zealand Spinach

G. S. Crookneck Squash

	Pkt.	Oz.	¼ Lb.	Lb.
Horsford's Market Garden. The best and most productive main crop variety. We know this variety would please you	\$0.10		\$0.15	\$0.45
Laxtonian, or Blue Bantam. For a combination of extreme earliness, superb quality and unusual productiveness it is unexcelled. Vines dwarf; peas of large size and 8 to 10 in a pod10		.17	.50
Lima. (See page 3)15			
Little Gem. One of the most popular early varieties10		.15	.45
Little Marvel. The earliest wrinkled pea grown10		.15	.45
Telephone. Tall, medium late variety with large well filled pods; the very finest quality10		.15	.45

Pepper

Chinese Giant. Largest Pepper grown; very mild (See page 7)10	.60	1.80	6.00
Golden Queen. The largest and best yellow pepper, mild and sweet. The rich, glossy golden yellow skin is most attractive10	.60	1.80	6.00
Long Red Cayenne. A well known variety; very hot10	.40	1.25	4.00
Pimento. The great thick-meated canning pepper. Sweet as an apple. Very early. Excellent for home garden10	.45	1.40	4.50
Ruby King. The most popular red sweet pepper10	.40	1.25	4.00

Pumpkin

Big Tom, or Improved Large Field. Leading corn field pumpkin....	.05	.10	.30	.90
Jumbo. Often weighs 100 to 300 lbs. Always a prize winner at exhibitions. A good pie pumpkin, splendid keeper, and valuable for feeding purposes. Seed saved from mammoth specimens only..	.10	.20	.55	1.75
Kentucky Field or Sweet Cheese. Sweet; excellent quality05	.10	.25	.75
Small Sugar. The very sweetest. The best for pies05	.15	.35	1.00

Radish

Crimson Ball. One of the finest radishes grown. Roots entirely free from hollow center or pithy fibre, and remain in condition the longest of any of the round or turnip shaped varieties05	.15	.40	1.25
Early Bird, or Non Plus Ultra. The earliest variety of all. Bright scarlet. Turnip shaped05	.15	.40	1.25
Early Long Scarlet Short Top. Best long red radish05	.15	.35	1.00
Early Scarlet Turnip. Early round red radish; later than Early Bird05	.15	.35	1.00
Early White Turnip. The earliest white radish05	.15	.35	1.00
French Breakfast. Olive shaped; red, white tipped05	.15	.35	1.00
Icicle. The best long white radish. Mild and sweet05	.15	.35	1.00
Long White Strassburg. The best summer radish05	.15	.40	1.20
Nerima Long. 3 feet long. Crisp and brittle. (See page 7)10	.35		
Sakurijima. Largest grown. Excellent quality. (See page 7)10	.35		
Scarlet China. The best winter radish05	.15	.40	1.20
White Tipped Scarlet Turnip. A very popular early radish05	.15	.35	1.00
Prize Mixture. All the leading early varieties mixed05	.15	.35	1.00

Salsify, or Vegetable Oyster

Mammoth Sandwich Island. The best variety10	.30	.90	3.00
--	-----	-----	-----	------

Spinach

Improved Victoria. Best variety. Remains in prime condition from 2 to 3 weeks after nearly all other sorts have run to seed05	.10	.20	.60
New Zealand. Especially suited to dry and arid locations where other varieties do not do well, and the only kind that can be successfully grown in hot weather05	.15	.35	1.10
Prickly Seeded, or Winter. Very hardy. The best to plant in autumn for early spring use05	.10	.20	.60

Squash

Cocozelle or Italian Vegetable Marrow. A most delicious summer variety, the fruits of which should be picked when not more than 4 to 6 inches long. Very productive; may be picked almost every day from the latter part of June until October. 5 or 6 hills are sufficient for a large family05	.20	.60	2.00
Delicious. The sweetest squash grown. (See page 6)05	.15	.45	1.50
Fordhook. Excellent for either summer or winter use. Gathered while young the fruits are cooked without removing the skin and are very sweet and tender. If allowed to ripen on the vine and stored in a cool, dry place they will keep until the following June. This squash is easily grown on all soils, and while it is quite small in size, it is immensely productive05	.15	.45	1.40
Genuine Hubbard. Most popular winter variety05	.15	.45	1.40
Golden or Red Hubbard. A week earlier than Genuine Hubbard05	.15	.45	1.50
Giant Summer Crookneck. The most popular summer squash05	.15	.45	1.40
Mammoth White Bush Scallop. Best summer squash for shipping to distant markets, but not as good eating as Crookneck05	.15	.45	1.40

Tobacco

Grow your own Tobacco and have a good supply of pure, unadulterated natural leaf that has not been "doped" or "doctored" up by the manufacturer. A packet or two of seed will grow enough to supply most anyone.

Connecticut Seed Leaf. The best variety to grow in the Northern and Middle States. Can be successfully grown even in the far North10	.45	1.50	5.00
Fine Havana. Choice seed from an extra select strain10	.45	1.50	5.00
Improved White Burley. (Extra select strain.) Popular variety for chewing10	.45	1.50	5.00

Tomato

	Pkt.	Oz.	¼ Lb.	Lb.
Bonny Best. Very early, vigorous and productive, color scarlet	\$0.05	\$0.35	\$1.00	\$3.50
Burgess' Earliest and Best. (See page 3)10	.50	1.50	5.00
Chalk's Early Jewel. Large, smooth, extra early bright red tomato. Considered by many to be the best early sort05	.30	.90	3.00
Dwarf Stone. Is the best of the dwarf growing sorts. The fruits, which hang well up off the ground, are nearly as large as those of the original Stone, and excellent in quality, smooth, meaty and solid. Dwarf varieties do not produce as many fruits to the plant as the larger sorts, but owing to their small size and upright growth twice as many plants can be set in the same garden space.05	.45	1.40	4.50
Favorite. Excellent red tomato. Very productive.....	.05	.25	.70	2.25
Golden Queen. Large yellow tomato05	.45	1.40	4.50
June Pink. The earliest pink variety. Same season as Spark's Earliana, but larger; quality excellent05	.50	1.50	5.00
Livingston's Globe. The most popular variety in the South for shipping to Northern markets05	.40	1.25	4.00
Perfection. Standard early red variety; always satisfactory05	.25	.70	2.25
Ponderosa. Largest tomato grown; nearest seedless of any variety10	.60	1.80	6.00
Red Cherry. Small fruited sort. Fine for preserves05	.50	1.50	5.00
Red Rock. Very fine, medium early, large, round, smooth, bright red sort; excellent canning variety05	.25	.70	2.25
Spark's Earliana. Standard extra early red tomato05	.30	.90	3.00
Stone. The old stand-by. Large, bright red, perfectly smooth, main crop tomato. The standard by which all other varieties are judged05	.25	.75	2.50
Yellow Pear. Small yellow fruits; pear shape; very sweet. Fine for preserves and eating out of hand. Plant a few for the children..	.05	.50	1.50	5.00

Dwarf Stone Tomato

Chalk's Early Jewel

Turnip

Amber Globe. The best large yellow late sort05	.10	.25	.75
Early Purple Top Strap Leaf. The standard early variety05	.10	.25	.75
Extra Early Purple Top Milan. Earliest Turnip grown05	.15	.35	1.10
Orange Jelly, or Golden Ball. The best early yellow Turnip05	.10	.25	.75
Purple Top White Globe. One of the most popular05	.10	.25	.75
Shogoin Mammoth. Mammoth variety from Japan. (See page 8)....	.10	.35	1.10	3.75
White Egg. An excellent variety05	.10	.25	.75

Rutabagas, or Swedes

Improved Purple Top Yellow. The best yellow variety05	.10	.25	.75
Monarch, or Elephant. Mammoth size; yields enormous crop05	.10	.30	.85
Sweet Russia. Excellent keeper; flesh white, very firm and sweet....	.05	.10	.30	.85

Amber Globe Turnip

BURGESS' EVERGREEN LAWN MIXTURE

Lawn trouble will be ended if you sow our Evergreen Lawn Mixture. If you want a beautiful lawn that will at all times be green and velvety, don't waste time and money sowing cheap grass seed. Our Evergreen Lawn Mixture is composed of the finest varieties of grasses, each of which has its season of beauty, with the result that a sod is produced that is always green. It will produce a rich and enduring turf in the shortest possible time without the use of cheap "quick growing" grasses. Not only is our Evergreen Lawn Mixture the best lawn mixture obtainable, but in the end it is really the most economical brand to plant. Being free from chaff, and of high germination, one pound will sow 400 square feet. Prices: ½ lb., 40c; 1 lb., 70c; 3 lbs., \$2.00; 5 lbs., \$3.25; postpaid.

Burgess' Shady Nook Lawn Mixture

On nearly every lawn there are unsightly spots caused by the fact that ordinary varieties of grasses used for lawns do not do well in the shade. Our Shady Nook Mixture is made up of the most expensive fancy grasses which naturally grow in shady spots. Prices: ½ lb., 50c; 1 lb., 90c; 3 lbs., \$2.50; 5 lbs., \$4.00; postpaid.

White Clover for Lawns

We have an Extra Fancy Dwarf White Clover that is especially fine for sowing with lawn grass mixtures. This variety will retain its green appearance throughout the hottest summer, and forms a close herbage which blends with the other grasses. For this purpose we recommend one ounce to each pound of grass seed. Pkt. (about one ounce), 10c; ¼ lb., 25c; ½ lb., 45c; 1 lb., 85c; postpaid.

Burgess' Evergreen Lawn Mixture

New President Harding Sweet Pea

The outstanding value of this wonderful introduction is apparent from the many first-class awards given to it. The President Harding has been accepted both in America and England for its superiority and popularity. The American Sweet Pea Society gave it the only SILVER MEDAL for the finest new Sweet Pea. The National Sweet Pea Society of Great Britain awarded it the only CERTIFICATE OF MERIT for two years. It is the first American Sweet Pea that has received an Award of Merit from the English Sweet Pea Society.

The President Harding represents a nearly perfect Sweet Pea. The flowers are of immense size, bold and impressive, yet of excellent proportion and exquisite texture. The

waved and frilled standard and wings lend a most charming effect to the flower.

The President Harding is an entirely new color in Sweet Peas. The flowers are peach red or salmon cerise suffused orange. Although a rich color, it is soft and pleasing, standing up well under strong sunlight. The bunch effect is lovely whether displayed during the day or under artificial light.

The President Harding is a foremost exhibition variety. The plants make a strong and sturdy growth and produce an abundance of long flower-stems. Each stem displays four exquisite flowers in an artistic arrangement.

Pkt., 20c; 3 pkts., 50c; ¼ oz., 80c; ½ oz., \$1.50; oz., \$2.75; postpaid.

Burgess' Prize Spencer Sweet Peas

The Spencer or Giant Ruffled is the finest type of Sweet Peas grown. Beautifully formed flowers, many measuring 2 to 2½ inches across, and petals daintily waved and ruffled. Unsurpassed as cut flowers. We list only the best of each color and every lover of Sweet Peas should plant some of all of these selected varieties.

ASTA OHN. Charming soft lavender; one of the most beautiful Spencers.

BARBARA. Soft salmon. Finest Sweet Pea of its color.

BROCADE. A combination of salmon, lavender and pink; satiny finish.

CHERUB. A deep rich cream, charmingly edged with bright rose.

COUNTESS. Clear soft, rich pink. The finest pink variety.

ILLUMINATOR. Brilliant glowing orange-scarlet. A most attractive variety.

IRISH BELLE. A lovely rich lilac flushed with pink.

KING EDWARD. Rich crimson; a most magnificent variety.

KING WHITE. The finest white Spencer; gigantic in size.

MRS. CUTHBERTSON. Rose-pink; wings white.

Spencer Sweet Peas

BURGESS' SELECTED MIXTURE OF SPENCERS is composed of the very finest varieties, and is the most gorgeous mixture of Spencers ever offered. It contains the cream of the very finest named Spencer varieties, including many recent novelties and superb new seedlings not yet introduced. It is the very best blend possible to produce and will surely delight all who want a grand variety of shades and colors. Pkt., 10c; 3 pkts., 20c; oz., 30c; ¼ lb., 90c.

Burgess' Early Flowering Sweet Peas

Our Early Flowering Strain of Spencer Sweet Peas is the result of more than ten years' careful scientific work. These varieties will not flower as freely and continuously as the late sorts, but will begin flowering from one to three weeks sooner, which is a decided advantage where early blooms are an important consideration. They are invaluable to florists for greenhouse culture; for outdoor planting in sections of the Southern States where later varieties can not be successfully grown; and for early blooms in cool climates.

AURORA. White, artistically flaked rich orange-scarlet.

BLUE JACKET. Rich, dark navy-blue.

CANARY BIRD. A splendid rich deep cream or primrose color.

DAINTINESS. Pure white, edged rose.

EARLY KING. The best early flowering crimson.

FLAMINGO. The finest early flowering orange colored variety.

GLORIOUS. A charming shade of Royal Purple.

GRENADIER. Bright dazzling scarlet.

HARLEQUIN. Heliotrope, striped chocolate.

PRICES: Your choice of any of the above varieties at 10c per packet; 35c per ½ oz., 60c per oz. 3 pkts., 25c; 7 pkts., 50c; or all 15 for \$1.00.

BURGESS' SPECIAL MIXTURE OF EARLY FLOWERING SWEET PEAS. Pkt., 10c; 3 pkts., 25c; ½ oz., 30c; oz., 55c; ¼ lb., \$1.65.

Special Sweet Pea Mixtures

BURGESS' STANDARD VARIETIES MIXED. The best of the old standard or Grandiflora varieties of Sweet Peas, mixed. All colors and shades. There are no Spencers in this mixture. While it is our cheapest mixture, and can not be compared to the Spencer varieties offered above, it is the best for the money that can possibly be given. Pkt., 5c; oz., 12c; ¼ lb., 35c.

CUPID OR DWARF SWEET PEAS. Grow 5 to 6 inches high; full-sized flowers; profuse bloomers. Excellent for borders. All the best colors and shades mixed. Pkt., 10c; 3 pkts., 20c; oz., 35c.

PERENNIAL PEAS (Lathyrus latifolius.) Hardy vigorous climbers that remain in the ground year after year; often 8 to 10 feet in height and bearing a mass of flowers throughout the summer. Pkt., 10c; 3 pkts., 25c. We also have a few blooming size plants for sale at 35c each; 2 for 60c; 6 for \$1.65; or 12 for \$3.00, postpaid.

SPECIAL OFFER One packet each of Burgess' Select Mixture of Spencers, Burgess' Special Mixture of Early Flowering Sweet Peas, Burgess' Standard Varieties Mixed, Cupid or Dwarf, and Perennial Peas—all five packets for only 35c.

MRS. TOWNSEND. White, edged light blue around both standard and wings.

ORCHID IMPROVED. Lavender, suffused pink; same shade as the Cattleya Orchid.

ROBERT SYDENHAM. A magnificent glowing orange.

ROYAL SALUTE. A rich fiery cerise; bright and outstanding.

SENATOR. A combination of deep chocolate and claret striped and flaked on light heliotrope.

VALENTINE. Light shell pink; the finest of its color.

WARRIOR. Rich maroon flushed with bronze.

WEDGEWOOD. Deep azure-blue. The best blue variety.

PRICES: Your choice of any of these Prize Spencer varieties at 10c per packet; 25c per ½ oz.; 40c per oz.

3 pkts., 20c; 7 pkts., 40c; or all 18 for \$1.00.

LAVENDER KING. A wonderful variety of rich true deep lavender throughout.

MAROON PRINCE. Rich maroon. By far the finest early variety of its color.

RISING SUN. Rose-pink on cream. A bright and most attractive flower.

SNOWSTORM IMPROVED. The best early white.

SWEET BRIAR. Lovely light pink with a soft salmon or amber suffusion.

ZVOLANEK'S ROSE. The best deep pink.

Giant Chrysanthemum-Flowered Comet

height, branching freely, each plant bearing from 20 to 30 magnificent flowers from 4 to 6 inches in diameter, with long, curled, twisted petals, forming loose, fluffy, globular heads, and resembling fine Japanese Chrysanthemums. We offer the following separate colors: White, Flesh-Pink, Rose, Crimson, Dark Blue. Pkt., 10c; $\frac{1}{8}$ oz., 30c; 5 pkts. (one of each color), 35c.

All colors mixed: Pkt., 10c; $\frac{1}{8}$ oz., 25c.

Achillea "the Pearl"

Unsurpassed for all kinds of cut flower work, bouquets, etc., and for cemetery planting there is nothing finer. Blossoms pure white, produced in large sprays, perfectly double, resembling little Pompon Chrysanthemums. A mass of bloom all summer. A hardy perennial. Pkt., 15c; 2 pkts., 25c.

Gypsophila Paniculata "Baby's Breath"

Very fine foliage and small white flowers. Excellent for cutting, to mix with other flowers, for which purpose it is superior to Asparagus Fern. Can also be dried and used for winter decorations. Pkt., 10c; 3 pkts., 25c.

Mexican Fire Plant

This beautiful ornamental bush is also known as Kochia, Burning Bush and Summer Cypress. It grows 2 to 2½ feet high and resembles a close-clipped ornamental evergreen. May be grown singly or in the form of a hedge or background. In early fall the whole bush turns to bright scarlet. It is very quick growing, and may be sown when the trees are coming out in leaf. Pkt., 10c; 3 pkts., 25c.

Mexican Fire Plant

Burgess' Choice Asters

Queen of the Market

The Queen of the Market is the best early aster, coming into bloom about 2 weeks earlier than any other kind. The blossoms are large in size, full double to the very center and are borne on long stems. Plants grow 15 to 18 inches in height. These asters are continuous and most prolific bloomers from summer until checked by fall frosts. We can supply the seed in the following separate colors: White, Pink, Crimson, Purple, Rose, Scarlet. Pkt., 8c; $\frac{1}{8}$ oz., 25c; 6 pkts. (one of each color), 30c.

All colors mixed: Pkt., 8c; $\frac{1}{8}$ oz., 20c.

New Fancy Yellow Aster

A lovely new Aster of most exquisite color, and by far the finest yellow aster ever offered. Flowers are large in size, perfectly double and fine for cutting. A most beautiful and rare novelty that should have a place in every flower garden. Pkt., 15c; 2 pkts., 25c; postpaid.

Giant Chrysanthemum-Flowered Comet

The Finest Aster Grown

Our select strain of Giant Chrysanthemum-Flowered Comet Aster is the finest of all. Finer and larger than the much advertised Aster m. m. The plants grow 18 to 24 inches in

New Fancy Yellow Aster

GIANT DAHLIA-FLOWERED ZINNIA

This fine novelty resembles the great show Dahlia in form and is nearly as large. The plant is a strong grower and flower stems are long and stiff. This remarkable variety includes a complete range of bright and rich colors and is a wonderful cut flower. Pkt., 15c; 2 pkts., 25c; postpaid.

New Curled and Crested Zinnia

The petals are elegantly twisted and curled, giving the flower a most attractive appearance. The plant grows 18 inches high by 2 to 2½ feet in diameter, and blooms freely until killed by severe frost. The colors range from white through many shades of yellow, rose, pink and salmon to deepest crimson. The new Curled and Crested is a grand cut flower which will last a considerable time in water. Pkt., 10c; 3 pkts., 25c; postpaid.

Giant Mallow Marvel

Mallow Marvels are a wonderfully improved form of our greatly admired Marshmallow or Hibiscus, in which flowers of enormous size, frequently 10 to 12 inches in diameter, have been developed. A robust type of upright habit, growing from 4 to 7 feet high, and producing an abundance of flowers in all the richest shades of crimson, pink, and white. These hardy perennial plants can be highly recommended for all kinds of plantings and appear to be equally at home in all positions, having the same vigor in dry and wet ground and are as hardy as an oak. Bloom continually from July until October. For prices of plants see front cover of this catalog. Pkt., 10c; 3 pkts., 25c.

Giant Perennial Lupinus

Beautiful, free flowering perennial that blooms the second season and each season thereafter. They thrive in any ordinary garden soil, and produce long, graceful spikes three feet high, which are loaded with beautiful pea-shaped flowers. Fine for perennial beds and backgrounds and excellent for cut flowers. We can supply seed in separate colors—Rose, Blue, White—or in Mixed Colors. Plants, 35c each; 2 for 60c; 6 for \$1.65; 12 for \$3.00, postpaid. Seed, 10c per pkt.; 3 pkts., (one of each color if you wish), 25c.

Sensitive Plant "Mimosa Pudica"

An interesting and curious plant with globular heads of pink flowers. It affords much amusement by its sensitive character. Even when touched slightly, the leaves instantly close and droop for a short time. Pkt., 5c.

Ornamental Cotton

Many people in the North have never seen cotton growing. As it is by far a more beautiful plant than many of the ornamentals and can be successfully grown in the North for ornamental purposes, it makes a very desirable addition to any flower garden. This is a great novelty for the Northern gardener, and always attracts the attention of both the grown-ups and the children. Start seed early and transplant. Has large, showy flowers, followed by large fluffy balls of white cotton. Pkt., 5c; 3 pkts., 10c; postpaid.

Ornamental Gourds

Rare, useful and ornamental varieties, such as Dipper, Nest Egg, Japanese Bottle, Dish Cloth, Pear-Shape, Pomegranate, Sugar Trough and Calabash Pipe. Any of these varieties 5c per pkt., 3 pkts., 10c; or, we can supply all varieties, mixed, at the same price.

Dipper Gourd

Burgess' Giant Dahlia-Flowered Zinnia

Curled and Crested Zinnia

Genuine Oriental Flower Garden

Japanese and Chinese Novelties

This is a special collection of Japanese and Chinese flower seeds; rare, scarce, curious, showy and most handsome varieties, entirely adapted to our climate. It is from Japan that we obtain many of our most beautiful flowers, such as Chrysanthemums, Irises, Lilies, Peonies, Oriental Poppies, etc., and many of our rarest, most curious, effective and showy varieties come from China. This Oriental Flower Garden contains a large assortment of varieties, all put up in one package. It would be expensive to buy them all in separate packets, as many of the varieties are very scarce, and not even offered by us in separate packets. Full directions for planting are sent with each package. This fine Oriental seed assortment will please you. Complete assortment (1 package) 10c; 3 for 25c; postpaid.

Perennial Flower Mixture

25 Varieties, 10c

Every garden should contain a good assortment of perennial plants, as they remain in the ground year after year and require very little care. An easy and inexpensive way of obtaining them is to send for our Perennial Flower Seed Package of 25 Varieties. Package, 10c; 3 for 25c; 7 for 50c; postpaid.

House Plant Seed Collection

Choice House Plants at Practically No Cost

Tuberous-Rooted Begonia
Petunia, Giant Double Fringed
Carnation, Extra Choice
Double White Chrysanthemum
Double Yellow Chrysanthemum

Calla
Calceolaria
Cineraria
Cyclamen
Asparagus Fern

Fuchsia
Geranium
Gloxinia
Baby Rose
Lantana

The choice varieties of the above-named plants are expensive, but we have a plan whereby you can secure a nice collection of the very choicest house plants at practically no cost. It is not necessary to pay enormous prices for these plants, for all of them can be grown from seed. Florists grow these plants from seed, and as soon as they are up and well rooted, sell them at high prices. You can grow them in the house easily and successfully, so there is no reason why you should not have as fine a collection of house plants as anyone in your community. We will send you our House Plant Seed Packet, containing a seed of all the above varieties, for only 25c, which is less money than you would pay a florist for just one plant. Were you to buy these seeds in full-size separate packets, this assortment would cost you over \$2.00, as many varieties of house plant seeds are hard to get and very expensive. With each packet we send full directions for planting. We have a good stock of these seeds and expect to be able to supply all our customers, but should we run out of one or more of the varieties named, we reserve the right to substitute other choice varieties of equal value or return your money. We recommend ordering early. One packet of this assortment, 25c; 5 for \$1.00, postpaid.

Cyclamen

Burgess' Giant Cyclamen

Cyclamens are, without question, one of the best and most beautiful house plants. Our Cyclamen seed is grown for us by a specialist, seed being selected only from plants of superior bloom and foliage. The flowers are unsurpassed for size, color and substance. The seed we offer is a mixture of bright red, dark red, light pink, deep pink, salmon, white, white with carmine eye, etc. In fact, the colors range

from white to darkest crimson, with all intermediate shades. Seed should be sown in shallow pans containing a mixture of finely sifted soil and leaf-mold. Keep warm and moist until the seeds sprout, which usually takes four weeks. When the plants are large enough to handle, they should be transplanted into small pots to be repotted into larger ones as the plants increase in size. Pkt. (15 seeds) 25c.

Jerusalem Cherry

A very showy pot plant, loaded with ornamental "cherries," which turn to glossy scarlet when ripe. Fine for Thanksgiving and Christmas decoration. The bright cher-

ries, which are not edible, will hang on the plant all winter; foliage always green and very ornamental. Pkt., 10c; 3 pkts., 25c.

Giant Exhibition Strain of Cineraria

Giant Exhibition Cineraria

Our Giant Exhibition Strain of Cineraria is unsurpassed in size of flower, bright colors and delicate fragrance, and plants grow into round bushes, completely covered by the massive flower-heads. For Christmas blooming seed should be sown in April; for blooming during early spring, June or July sowing should be made. Sow seed in shallow boxes containing a fine, fairly sandy soil. Keep shaded and moist until seedlings appear. Transplant into other boxes as soon as they are large enough to be handled, and into small pots when the plants attain a fair size. Cinerarias delight in a rich soil, cool and airy rooms and plenty of light. Pkt., 25c; 3 pkts., 60c.

Big 12 Collection

Gladiolus

We have some extra select and rare varieties of Gladioli this year, that we have put up in collections of 12 bulbs each, and will supply them to our customers, as long as they last, at 40c per collection.

The new improved type of Gladiolus are the most gorgeous, brilliant and beautiful you ever saw. Can in no way be compared with the kinds seen in the ordinary flower garden. They will grow and bloom for anyone, in any soil and climate; bloom more than any other spring planting bulbs and require but little care. They are unequalled for cutting—last two weeks in water—and start blooming in early summer. Long, graceful spikes, 18 to 20 flowers on a spike, single blossoms measuring 4 to 7 inches across, and from 2 to 4 spikes from each bulb. The Gladiolus is the queen of all flowers. This is an exceptionally big bargain—rare collection of gorgeous and beautiful colors—all bulbs blooming size.

Send 40c today for one collection of 12 bulbs; or better still, send \$1.00 for three collections (36 bulbs); or \$2.00 for seven collections (84 bulbs). We will deliver them prepaid.

Gladiolus Seed

The Gladioli is easily grown from seed, and we would like to have all our customers try raising a few in this way. Our seed was all saved from choice, large flowering plants, and by planting a package you should get a mixture of all colors and shades, spotted, mottled, etc. Bulbs raised from seed don't come true to name. You may get some new varieties that will make you a fortune. All the leading new varieties are seedlings; that's the way the new varieties are started. You are just as liable to get a choice new variety as anyone. If you don't, you will get a fine collection worth considerable more than the price of a dozen packets of seed. Gladiolus from seed do not blossom until the second year. Pkt. 10c; 3 pkts., 25c; 7 pkts., 50c.

Yellow King Humbert Canna

Cannas

KING HUMBERT. The grandest Canna ever offered. Bronze foliage. Immense heads of orange-scarlet, Orchid-like flowers measuring 6 to 8 inches across. 4 to 5 feet high. 25c each; 6 for \$1.20; 12 for \$2.00, postpaid.

YELLOW KING HUMBERT. Rich yellow, spotted and blotched with bright red. Rich, deep green foliage. Height, 5 feet. 25c each; 6 for \$1.20; 12 for \$2.00, postpaid.

HUNGARIA. The best pink Canna. Purest LaFrance pink. Height, 3½ feet. 30c each; 6 for \$1.50; 12 for \$2.50, postpaid.

Giant Hyacinth

The Giant Hyacinth (*Hyacinthus Candican*) is a species of Hyacinth which blooms late in the summer, growing 3 to 5 feet high, with spikes of pure white flowers 2 feet in length. **Blooming size bulbs, 25c each; 3 for 60c; 12 for \$2.00, postpaid.** The Giant Hyacinth can also be grown from seed. Plants grown from seed bloom the second year. Seed, 10c per packet.

Everlasting, or Straw Flower

Beautiful Aster-like flowers that, when dried, retain much of their original shape and splendor. Popular for winter decorations, and most showy when arranged in bouquets with ornamental grasses or *Gypsophila Paniculata*. The blossoms should be cut as soon as they open, tied in small bunches, and dried slowly in a cool, shady place, hanging the flowers downward to keep the stems straight. We can supply seed in the following separate colors: Crimson, Purple, Rose, Golden-Yellow. Pkt., 10c; 4 pkts. (one of each color), 25c. All colors mixed: Pkt., 10c; 3 pkts., 20c.

Umbrella Palm

Japanese Umbrella Palm

A Graceful and Handsome House Plant easily grown from seed winter or summer. The Japanese Umbrella Palm is a semi-aquatic plant. It is easily grown from seed either in a bowl of water or in very damp soil. Probably the most useful, as well as the most interesting method, is to grow the plant in a bowl or jardiniere filled with water, with two or three inches of good garden soil at the bottom. The seeds soon commence to germinate, and the plant shoots up stems two or three feet high and rapidly assumes a pretty palm-like appearance, as shown in the engraving. The tops of the stems are surmounted by a whorl of umbrella-shaped leaves of a waxy appearance. Pkt., 15c; 2 pkts., 25c.

Hungaria Canna

Burgess' Wonderful Dahlias

Paul Michael or California Gold

PIERROT. An extra fine English creation of the Incurved Cactus type, its petals being long, and so incurved and interlaced as to almost meet at the center. A pleasing shade of amber bronze, with occasional white tips. 35c each.

REV. DR. BAKER. Another English creation of a novel shade of plum; good bloomer and in great demand. 50c each.

Decorative Dahlias

BERTHA STORY. An exceptionally fine dahlia that is worthy of being highly recommended. The flower is very large and of a most exquisite rose-pink. Occasionally white petals appear, adding to its attractiveness. Very desirable for house decoration, and equally showy in the garden. \$1.00 each.

DARLENE. The earliest of all dahlias to bloom, and one that flowers continuously and abundantly all season. A lovely shade of shell pink with dainty blending of white at the center. 35c each.

ELIZABETH SLOCOMBE. This new creation is a giant among giants, its mammoth flowers often measuring six to nine inches in diameter. Its flowers are of a rich, brilliant purplish garnet, and produced on long, stiff stems in great abundance. 50c ea.

FRANK A. WALKER. An early and abundant flowering dahlia of a very beautiful shade of lavender. Long stems that are stiff and wiry, making it ideal for cutting. 35c each.

MINA BURGLE. The finest scarlet Decorative for garden and cut-flower purposes. A glowing, most brilliant scarlet. 50c each.

PAUL MICHAEL or CALIFORNIA GOLD. Can be grown to majestic size, often six to ten inches in diameter. Twice awarded first prize for largest dahlia in California shows. A pure gold or deep orange-buff. An early, continuous and abundant bloomer. \$1.50 each.

PRIDE OF CALIFORNIA. The finest dark crimson; tall vigorous grower; ideal garden and cut flower variety. 50c each.

PURPLE MANITOU. Giant French importation; beautiful rich deep purple. 35c ea.

Miss Helen Hollis

The Dahlia is "Queen of Fall Flowers," commencing to bloom in late June and early July, and continuing for eight to twelve weeks, until the foliage is killed by frost. No other plant blooms over such a long period with such a wealth of gorgeous flowers. Our collection consists of the largest and most wonderful new creations together with the cream of modern varieties. Every one is distinct, and a great improvement over the commonly grown dahlias. We offer the Chrysanthemum-like Cactus Dahlias, with their petals so long and graceful; the stately broad-petaled Decorative Dahlias; artistic semi-double Peony-flowered varieties; and the finest newer productions in Show or Ball-shaped Dahlias. Our prices are for well developed, plump roots, which are sure to grow. At the prices named, we pay postage to any part of the United States.

Cactus Dahlias

ADVANCE. A very large, bright fiery scarlet, with slight blending of yellow at the center. 50c each.

COMET. Soft lavender-pink, penciled and dotted deep crimson. Very free flowering. 50c each.

COUNTESS OF LONSDALE. One of the most abundant flowering dahlias in existence; a beautiful salmon-red. 50c each.

GEORGE WALTERS. A wonderful Hybrid Cactus Dahlia, and one of the most beautiful. Produces flowers of gigantic size, and of a beautiful shade of salmon-pink blending to old gold. \$1.00 ea.

KALIE. A truly majestic flower; the largest scarlet Hybrid Cactus Dahlia yet developed. In color, a rich deep glowing scarlet. A favorite everywhere. 75c each.

MARJORIE CASELTON. A very free-flowering rose-pink with yellow center. Very dainty. 35c each.

MASTER CARL. A beautiful golden orange, a shade rare among dahlias. Very much desired. 75c each.

Cactus Dahlias

WM. H. SLOCOMBE. The largest and best yellow dahlia, flowers often six to eight inches in diameter, under ordinary conditions, and may be forced larger. A clear primrose or sulphur yellow, and one we highly recommend. \$1.00 each.

Peony-Flowered Dahlias

DR. PEARY. Very large, semi-double, rich velvety maroon flowers. Almost black. 50c each.

FERNA. The most beautiful shade of rose-pink imaginable. Large fluffy flowers. 50c each.

PRESIDENT HARDING. One of the most abundant flowering dahlias. A mass of beautiful soft yellow flowers from early summer until late fall. 50c each.

VERA KING. Beautiful waxy clear white, long stems. 50c each.

Show or Ball-Shaped Dahlias

A. D. LAVONI. Quilled, bright shell-pink. A favorite everywhere. 30c each.

GOLD MEDAL. An effective combination of scarlet and yellow. 50c each.

MAUDE ADAMS. One of the most beautiful dahlias in cultivation. A dainty blend of pink and white. 50c each.

MISS HELEN HOLLIS. The largest scarlet Show Dahlia; long stems; good free bloomer. 50c each.

MONTAGUE WOOTAN. Miniature crimson-maroon; ideal for button-hole bouquets. 35c each.

MRS. C. D. ANDERSON. Giant purple-crimson; one of the most popular varieties; long stems, good for cutting. 50c each.

LILY P. HATHAWAY. Very large; orange shade; very fine. \$1.00 each.

STORM KING. The most reliable pure white; good for cutting; flowers produced freely. 35c each.

VIVIAN. Large rose-violet flowers; one of the champions. 30c each.

Mixed Dahlias

RAINBOW MIXTURE. A very choice assortment of all colors, shades and shapes. 6 for \$1.00; 10 for \$1.50; 24 for \$3.00, postpaid.

Burgess' Hardy Perennial Plants

For cut flowers and beautiful landscape effect the hardy perennials fill a place in the garden which nothing else can supply. For the border they are most satisfactory, for filling in the front of shrubbery they are unexcelled, and for massing on the lawn they are superb. With a little care you can have a profusion of bloom from early April to late November. The blooming period can be prolonged by keeping the flower stalks cut off close to the ground and not permitting them to form seed. Most of the early flowering varieties will bloom again in the fall if cut back close after their first blooming period. All perennials offered by us are absolutely hardy, free and robust growers and superb bloomers. The plants we offer are not little green house seedlings or slips that will grow only when given the very best of care and attention. Our plants are strong, thrifty, field grown stock, that is sure to give the best of satisfaction.

Those marked * are especially suited for cutting.

- * **ACHILLEA**, the Pearl. Double, dwarf, resembling little Pompon Chrysanthemums. (See page 22).
- * **AGERATUM**, Hardy (Eupatorium Coleestium). Lavender blue; bloom from August to frost.
- * **ANTHEMIS** (Hardy Marguerite). Yellow.
- * **AQUILEGIA** (Columbine). Fine mixture of all colors.
- * **ASTER**. In separate colors; blue, pink and white.
- * **BOCCONIA** (Piume Poppy). 6 to 8 feet. July and August.
- * **BOLTONIA**, Asteroides. See description on catalog envelope. 50c per dozen.
- CAMPANULA**, Medium (Canterbury Bell). In separate colors. Dark blue, light blue, rose and white.
- * **CARNATION**, Grenadin. Resemble the indoor Carnation, blooming in great abundance all summer. In separate colors; red, pink, yellow and white.
- * **CENTAUREA**, Montana (Hardy Centaurea). Large, violet-blue flowers, resembling the Cornflower. July-Sept.
- * **CHINESE LANTERN PLANT** (Physalis Franchetti). An ornamental variety of Winter Cherry grown principally for its very attractive balloon-like husks or pods, which turn bright red and resemble Chinese paper lanterns. May be dried and last forever, making splendid winter decorations.
- * **CHRYSANTHEMUM**, Hardy. In separate colors; red, pink, white and yellow.
- * **COREOPSIS**, Grandiflora. Rich golden yellow; bloom all summer; 2 feet.
- * **DELPHINIUM** (Hardy Larkspur), Improved Hybrids. (See back cover of this catalog.)
- * **DIANTHUS**, Plumarius (Hardy Pinks), Semperflorens. Everblooming Garden Pinks. Fine mixture of colors.
- * **DIGITALIS** (Foxglove). 4-6 ft. July-Aug. In separate colors; purple, rose, white and yellow.
- FORGET-ME-NOT** (Myosotis). Beautiful small blue flowers.
- * **FUNKIA** (Plantain Lily). Lilac and blue flowers.
- * **GAILLARDIA** (Blanket Flower). Flowers continuously from June to October, in many rich and brilliant shades of orange, crimson and red.
- * **GYPSOPHILA**, Paniculata. (See page 22 for description.)
- * **HELIANTHUS** (Perennial Sunflower), Multiflorus Fl. Pl. Erect bush-like habit, 5 to 6 ft.; masses of clear yellow double flowers resembling Cactus Dahlias. Aug.-Sept.
- * **HEMEROCALLIS**, Fulva (Golden Day Lily). 4-5 feet.
- * **Thunbergii** Day Lily. Rich butter-cup yellow. 4 feet.
- HOLLYHOCK**. See back cover.
- * **LATHYRUS LATIFOLIUS** (Perennial Sweet Pea).
- LINUM** (Perennial Flax). Large blue flowers.
- * **LUPINUS** (Lupine), Polyphyllus. One of the most beautiful flowers of the garden. About 3 feet high with long spikes of pea-shaped flowers. Blue, White and Rose.

- * **PENTSTEMON** (Beard Tongue), Barbatus Torreyi. Most useful and showy perennial. Spikes of bright scarlet flowers from June until August. 3 to 4 feet.

- * **PHLOX**. In separate colors; crimson, scarlet, pink and white.

- * Miss Lingard. Everblooming. See back cover.

- * **PHLOX SUBULATA** (Moss Pink). Dwarf, trailing plants, with moss-like evergreen foliage. Excellent for edging or rock garden. White or bright rose.

- PHYSOSTEGIA** (False Dragonhead), Virginica. One of the most beautiful mid-summer flowering perennials. Long spikes of lavender-pink, tubular flowers resembling a giant feather.

- * **PLATYCONDON** (Balloon Flower). Bell-shaped flowers on graceful, slender stems. 2 ft. June-Oct. Blue or White.

- * **POPPY**, Nudicaule (Iceland Poppy). Bloom in great abundance throughout the entire summer. 1 ft. In separate colors; orange, white, yellow.

- * **ORIENTALIS** (Oriental Poppy). See back cover page.
- * **RANUNCULUS** (Buttercup). Double flowered bright yellow buttercup, blooming in great abundance in May and June. 12 inches.

- * **RUDBECKIA**, Golden Glow. Large double yellow flowers. 5-7 feet. July-Sept.

- * **SHASTA DAISY**. The largest of all Daisies; average about 4 inches in diameter; white.

- * **SWEET WILLIAM**, Giant Mixed. The finest of Sweet Williams. Immense flowers of gorgeous shades.

- * **TRITOMA** (Red Hot Poker or Flame Flower). Spikes of rich orange-scarlet flowers. Aug.-Sept. 3-4 ft.

- VALERIANA** (Garden Heliotrope). Pink and White.

- YUCCA**, Filamentosa (Adam's Needle). Distinctive evergreen plant producing large spikes of white flowers. 4-6 ft. Grows well on the poorest and driest sandy soils where little else will grow.

Perennial Phlox

PRICES

Mrs. H. Darwin Iris

IRIS (Flower-de-luce)

The Iris is one of the most beautiful of hardy garden plants. Will grow almost anywhere, in out-of-the-way corners, among shrubbery, etc., but for best results plant in a well drained, sunny position, barely covering the roots. Avoid fresh manure in preparing the bed. They require very little care, and will remain in the ground from year to year. They bloom in May and June, when there is a scarcity of other flowers.

CELESTE. Light blue. Large flowers. 30 inches.

FLAVESCENS. Center petals light primrose; outer petals cream and yellow. 30 in.

HONORABILIS. Golden yellow center, with outer petals of rich mahogany and gold. 18 inches.

KOCHII. Center deep blue; outer petals rich, velvety dark purple; buds black. 2 ft.

LORELEY. Center light yellow; outer petals blue, bordered with cream. 30 inches.

MME. CHEREU. Pure white, daintily edged with light blue. 3 feet.

MRS. H. DARWIN. White, with faint violet markings on outer petals. Finest white. 2 feet.

PALLIDA DELMATIC. Enormous flowers of soft lavender; very fragrant. 4 feet.

QUEEN OF MAY. Lovely soft lilac-pink. 30 inches.

FINE MIXED IRIS. Wonderful variety of colors, assorted, \$1.00 per doz.; 60c per half dozen, postpaid.

PRICES

All Iris, except otherwise noted, 25c each; 3 for 65c; 6 for \$1.10; 12 for \$2.00, postpaid.

Ornamental and Flowering Shrubs

A small amount of money spent on shrubbery will beautify your home and greatly increase the value of your property. We have a fine stock of thrifty field grown plants, that are sure to give the best of satisfaction.

(A) denotes shrubs which attain 1 to 3 feet in height at maturity; (B), 4 to 6 feet; (C), 7 to 9 feet; (D), 10 to 12 feet; and (E), over 12 feet.

PHILADELPHUS (Syringa or Mock Orange)

CALICANTHUS FLORIDUS (Sweet Scented Shrub) (D). An interesting shrub, having a spicy, fragrant odor. Flowers of rare chocolate color; bloom in June and at intervals after. 40c each.

CORNUS (Dogwood), Red Branched (C). Flowers creamy-white. Very conspicuous and ornamental in winter, when the bark is bright blood-red. 40c each.

CRAB, Bechtel's Double Flowering (D). The finest of all small flowering trees. When in bloom presents the appearance of being covered with delicate pink roses, scenting the atmosphere for a long distance with a perfume surpassing the fragrance of the Tea Roses. The cut blossoms have often been taken for roses. The ideal lawn tree for the small yard. \$1.25 each.

CYDONIA JAPONICA (Japanese Quince) (C). Very ornamental. Double crimson flowers in great profusion early in the spring. 40c each.

DEUTZIA, Pride of Rochester (C). One of the most elegant shrubs ever introduced. A vigorous grower and produces its handsome flowers in great profusion. Flowers white, with back of petals tinged rose; very double. 40c each.

FORSYTHIA (Golden Bell) (C). Handsome shrub with golden-yellow flowers that appear very early in the spring, before the leaves; frequently while the ground is still covered with snow. Branches cut off in winter and put in a vase of water will bloom in the house. 35c each.

Suspensa (Weeping Forsythia) (C). Graceful, long, slender drooping branches. Very showy yellow flowers. One of the snowiest shrubs in cultivation. 45c each.

Hydrangea Paniculata Grandiflora

ALTHEA (Rose of Sharon) (C). Flowers profusely in late summer and early fall, when few other shrubs are in bloom. Valuable for hedges or single specimens. We can supply either single or double flowered in the following colors. Pink, Red, White, 35c each.

AMORPHA (False Indigo) (C). Attractive blue flowers in June; feathery foliage. The finest blue flowered shrub. 45c each.

ANGELICA TREE (D). A very distinct shrub or small tree, with lustrous bright green foliage and graceful habit of growth. Flowers borne in long-stalked clusters. An unusual but beautiful and appropriate plant for the shrubbery border. 65c each.

ARALIA SPINOSA (E). Tall tree-like shrub of semi-tropical appearance. Broad, handsomely cut leaves, often 3 or 4 feet long, and huge clusters of small white flowers in July. 75c each.

BERBERIS, Thunbergii (Japanese Barberry) (B). Beautiful shrub of neat, dense growth, yet graceful because of its drooping branches. Yellow flowers, followed by scarlet berries through the fall and winter. Fine for planting along roads and walks, and as a hedge plant it needs no trimming. 30c each.

BUTTERFLY BUSH (B). The most perpetual bloomer and one of the finest of all shrubs; flowers from early summer until frost, and blooms the first season. Beautiful lilac-colored flowers borne on flower heads which frequently measure 10 inches in length. 75c each.

Spirea Van Houttei

HONEYSUCKLE, Tartarian Pink (C). A large handsome bush. Loaded with pink flowers in the spring, followed by red berries during summer and fall. 35c each.

Tartarian White (C). Same as Tartarian Pink, excepting color of flowers, which are pure white. 35c each.

PRICES All shrubs and vines listed on pages 28 and 29 are small size, well rooted, hardy, one and two year old field grown stock, and not to be compared with the tender greenhouse rooted plants of these varieties being offered at lower prices.

All Shrubs and Vines delivered by parcel post, postpaid, at prices given. For extra select, larger plants, by express, not prepaid, double above prices.

SPECIAL DISCOUNTS. 10% discount if you order 5 or more; 15% if you order 10 or more; 20% if you order 20 or more; 25% discount on 50 or more, all to be shipped to one address. Take your choice of varieties listed on this and the next page.

HYDRANGEA, Hills of Snow (A). The earliest blooming variety. Flowers pure white. 65c each.

Paniculata Grandiflora (C). One of the most magnificent hardy shrubs, bearing immense panicles of bloom a foot long, white at first, turning to rose in autumn. Commence blooming in August. Will bloom the same year they are set out. 50c each.

LILAC, Persian Red (C). Very graceful. 75c each.

Purple (C). Dense panicles of purple flowers. The most fragrant of any. 50c each.

White (C). Pure white; very fragrant. 50c each.

PHILADELPHUS (Syringa or Mock Orange), Giant Flowered (D). Tall vigorous grower with large foliage and flowers. Valuable for backgrounds, screens, grouping and specimens. Flowers white and very fragrant. Beautiful for cutting. 35c each.

SNOWBALL (Viburnum Sterilis) (D). A well known favorite shrub, with globular clusters of pure white flowers the latter part of May. 75c each.

SPIREA, Anthony Waterer (Perpetual-Blooming Red) (A). Handsome round bushes, 3 feet high and wide. Begin to bloom in summer and continue until fall. Rose red flowers in large clusters all over the bush. 50c each.

Billardi (Perpetual-Blooming Pink) (B). A grand shrub for planting in masses, and makes a good cut flower. Beautiful shade of pink. 40c each.

Van Houttei (C). A leader among shrubs, and a beautiful ornament at all seasons. Sometimes called Bridal Wreath. A round and graceful bush with arching branches, covered with white flowers in early summer. No doubt the most useful of all shrubs. 30c each.

Aurea (Golden Spirea) (C). Of similar habit to Spirea Van Houttei; golden yellow foliage. One of the finest yellow-leaved shrubs. 40c each.

SYMPHORICARPOS, Racemosus (Snowberry) (B). Graceful shrub. Flowers pinkish-white, in loose racemes, in summer, followed by clusters of milk-white berries, which remain on the branches until way in the winter. 40c each.

Vulgaris (Coral Berry) (B). Similar to Snowberry, except that its fruits are red. A grand shrub. 35c each.

WEIGELA, Rosea (B). Rose colored flowers. Blooms in June. An elegant shrub. 40c each.

Spirea, Anthony Waterer

PRICES Thrifty, one and two year old, field grown, mailing size vines delivered postpaid at above prices. For extra select, larger plants, by express, not prepaid, double above prices.

Hardy Climbing Vines

(F) denotes vines that do extra well in shady places. (G) denotes vines that do extra well in hot, sunny situation. (H) denotes vines that are especially suited for growing on north side of house. (I) denotes vines that are especially suited for growing on east side of house.

BOSTON or JAPANESE IVY (H). A grand hardy climbing vine for covering houses, churches, schools, etc. Clings firmly to the smoothest surface of rock or wood. The glossy leaves assume, in the autumn, the most beautiful tints of scarlet and crimson. The best vine in existence for growth on brick walls. 35c each.

CELASTRUS SCANDENS (Climbing Bitter Sweet) (F). A most desirable climber; handsome, large leaves, yellow flowers in May and June and clusters of ornamental orange-capsuled fruit in autumn. 40c each.

CINNAMON VINE. Beautiful fragrant, easy growing tuberous-rooted climber. Perfectly hardy, thrive on all soils, in sun or shade, wet or dry. No insects or blight ever trouble. Will quickly surround your windows, arbors and porches with a mass of vines, and profusion of flowers which perfume the air for a long distance. Grow 30 to 40 feet in a single season. 15c each; 3 for 35c; 12 for \$1.00.

CLEMATIS, Paniculata (Japanese Clematis) (G). The finest small flowered Clematis. Rapid grower; flowers pure white, fragrant, and produced very freely in large clusters. A very desirable vine. 40c each.

Henryii (H). Finest white Clematis. Flowers 4 to 6 inches in diameter. Blooms freely during summer and fall. Very hardy. 90c each.

Jackmanii (H). Same as Henryii, except that the flowers are a rich violet-purple. 90c each.

Madame Andre (H). Same as Henryii, except that the flowers are bright crimson in color. 90c each.

DUTCHMAN'S PIPE (G). Brownish flowers, resembling a miniature pipe. An ideal vine for situations requiring dense shade; leaves deep green, very large, broad and channel laid; vine grows rapidly. 50c each.

HONEYSUCKLE, Japonica Halliana (Hall's Japanese) (F or G). Flowers white, changing to yellow. 35c each.

MATRIMONY VINE (I). Handsome trailing vine, covered with scarlet fruit in autumn. 35c each.

TRUMPET VINE (G). Very hardy and rapid grower. Used for covering unsightly places, stumps, or wherever a showy flowering vine is desired. Produces clusters of trumpet-shaped, orange-scarlet flowers about 3 inches long. If tops are kept cut back it makes a beautiful bush for the lawn. 25c each.

WISTARIA, Chinese Purple (G or I). Strong, rapid grower, desirable for trellises, porches, etc. The light purple flowers are very showy, and are produced in long racemes. A large vine in bloom is a beautiful sight. Perfectly hardy. 50c each.

Boston Ivy on Brick Wall

SPECIAL PRICES

Hardy Everblooming Hybrid-Tea Roses

Bessie Brown

creamy white, flushed and tinged with pink. fusion all season.

COLUMBIA. A glorious new rose that blooms all the time, almost thornless, hardy as an oak and thrives in any location. Wonderful strong shoots four feet or more in length, each producing a magnificent bloom, often measuring six inches across. Color a deep peach pink, deepening into a glowing pink. The fragrance is beyond description, sweeter than the American Beauty. One of the most exquisite roses we have ever seen. **First size plants, 40c each; 2 year, \$1.00; postpaid.**

CRIMSON QUEEN. Rich, bright velvety crimson; large and full flower; strong, upright grower.

CRUSADER. Color rich velvety crimson. Buds and blooms immense and of great substance, very full and double and the largest rose of its color we have yet seen. A big, strong, rugged bush, loaded with the finest blooms that can be grown. Free from disease, hardy and a profuse bloomer.

DUCHESSE OF ALBANY (Red La France). Two shades darker than the pink La France, of which it is a duplicate in size, form and habit.

ETOILE DE FRANCE (The Gold Medal Rose of France). This rose has been selected from the unlimited number of hardy roses as the acme of perfection. A brilliant shade of rich velvety crimson. Very striking. Flowers are extremely large, on long stiff stems, and buds are long and pointed.

FRANCIS SCOTT KEY. Color a rich glowing scarlet with darker shadings. Buds long and pointed, opening full and double; produced on long, upright stems. Strong healthy grower. Hardy everywhere. Free blooming. There is nothing finer than this glorious rose.

GOLDEN OPHELIA. Bright golden yellow, paling slightly at outer petals. A seedling from the celebrated Ophelia, and a wonderful rose. **First size plants, 35c each; 2 year, 75c; postpaid.**

GORGEOUS. One of the most striking roses in existence owing to the marvelous blending of colors. Deep orange-yellow and heavily veined with reddish copper, the most charming and gorgeous coloring which has yet been attained in a rose. Awarded Gold Medal by the National Rose Society. Flowers large and full, exquisitely formed and produced in marvelous profusion. **First size plants, 35c each; 2 year, 75c; postpaid.**

HADLEY. Deep velvety crimson, retaining its brilliancy at all seasons of the year. Flowers borne on long, stiff stems, well above the foliage. A valuable outdoor rose and an all-the-year-round forcing variety. **First size plants, 35c each; 2 year, 75c; postpaid.**

HELEN GOULD. An incessant grower and bloomer. Long, beautiful buds and full, double flowers of warm, rosy-crimson.

Without question, the most popular roses today, superseding all other classes for general planting. These roses are the result of crossing the tender everblooming Tea Roses with the hardy Hybrid Perpetuals or "June Roses." These roses are hardy and of vigorous growth, but should be given winter protection in the Northern States. They have the size of flower and exquisite fragrance of the "June Rose," combined with the constant blooming qualities, delicate tints and rich bright colors of the "Tea" or Monthly Blooming Roses. In other words, they inherit the good points of both the Teas and Hybrid Perpetuals, and bloom continually from the beginning of summer until fall frosts set in. Both our first size one-year and our two-year old plants, set out this spring, will bloom this year. The two-year old plants should have an abundance of roses throughout the entire summer.

AMERICA. Regarded by many rose growers as the most beautiful rose in the world. Its beauty will astound you. Buds of great length and pointed, opening into an enormous flower from 4 to 6 inches in diameter, and borne on long stiff stems, making it an ideal cutting variety. Color a rose pink or peach blow shade, and very fragrant. Bush a healthy grower with dark green foliage, and an exceedingly free bloomer. **First size plants, 50c each; 2 year, \$1.25; postpaid.**

AMELIA GUDE. A cross between Columbia and Sunburst. A charmingly beautiful yellow rose, outer petals reflexing deep yellow, center shading to cream. Buds long and pointed; flower medium size; very fragrant. Vigorous, upright grower and free bloomer. **First size plants, 45c each; 2 year, \$1.10; postpaid.**

ANGELUS. A superb white rose, with sometimes a creamy center when open. Full double flowers of large size; buds pure white, long and pointed, on long stiff stems. Foliage deep, glossy green and free from insects and disease. A great winter bloomer for cutting and a superb outdoor garden variety. **First size plants, 40c each; 2 year, \$1.00; postpaid.**

AUGUSTA VICTORIA. One of the most beautiful everblooming hardy garden roses in the world. A continuous bloomer, producing successive crops of buds, formed with large petals of best substance, and show no center when fully open. Buds of faultless shape; flowers of exquisite fragrance. Color, pure white, lightly tinted with lemon toward the center. A general favorite with rose growers.

BESSIE BROWN. Blooms are very large in size, full double and of perfect shape; slender pointed buds with large shell-shaped petals. Color, Deliciously sweet; vigorous grower; and flowers produced in wonderful profusion all season.

Etoile de France

PRICES All Roses in this catalog, except where otherwise noted, first size one-year plants, 30c each; 2 year old plants, 65c each; postpaid.

SPECIAL DISCOUNTS. Order 4 or more and deduct 10% discount; 15% discount if you order 8; 20% discount on 12; 30% on 20 or more. All must be shipped to one address in order to get these discounts. Hardy Everblooming Hybrid Teas—Continued

HOOSIER BEAUTY. Glowing crimson-scarlet with darker shadings; buds of good length and splendid shape; a texture like velvet, opening into a magnificent bloom of dazzling brilliancy; very fragrant. A strong and clean grower, producing stems 2 to 3 feet in length, with a bud on every shoot. First size plants, 35c each; 2 year, 75c, postpaid.

IRISH FIREFLAME. Old gold, coppery-yellow or deep maddery-orange, flamed with ruddy crimson, becoming fiery orange as the spiral bud develops, the intense and varying color gradations spontaneously conveying the impression of a flame of fire. Large, single flowers, strongly and deliciously tea-perfumed and never out of bloom. Handsome and shiny wood of vigorous growth and deep bronzy-green foliage. Gold Medal, National Rose Society.

JONKEER J. L. MOCK (Giant La France). A true ever bloomer with gigantic flowers on stiff erect stems. Long, pointed buds and very double, full flowers of deep imperial pink. Highly perfumed, and the largest of all Hardy Everblooming Roses.

KILLARNEY. Brilliant sparkling pink with large, pointed buds, broad, wax-like petals with silvery edges. Flowers of delightful fragrance; immense size. Unusually hardy.

LA FRANCE. Silvery-rose, with pink shades and satin-like petals of unsurpassable beauty; large, symmetrical and deliciously fragrant blooms from June until frost.

LADY URSULA. Flesh-pink, edged porcelain-white; petals large, smooth and circular; full, splendid form and great substance; delicately tea perfumed.

MRS. AARON WARD. A rose of unusual individuality and charm to please the most fastidious taste. Strong, hardy and thrifty in growth; beautiful in shape and foliage. The large, full and perfect flowers are borne without interruption all summer on rigid upright stems and everyone loves the color, which is coppery orange in the bud, developing to golden orange in the open flower. First size plants, 35c each; 2 year, 75c, postpaid.

NATIONAL EMBLEM. Dark crimson, overlaid with a velvety finish, shading to vermillion toward edges. Buds long and pointed on stout stems, opening full and double, each one coming to perfection, and produced in marvelous profusion throughout the entire season. Plants make a gorgeous sight owing to the brightness of the blooms and the luster of foliage. Foliage mildew proof.

OPHELIA. Brilliant salmon-flesh shaded with rose on outer edges of petals, with a heart of glowing peach-pink and orange, yellow blendings, all passing finally to lighter shades. Faultless form in bud and flower; erect habit, stiff, long stems; free and continuous in growth and bloom; handsome, bright foliage; immune to mildew and black spot; very fragrant; possesses every requisite of a perfect Rose. First size plants, 35c each; 2 year, 75c; postpaid.

PRESIDENT TAFT. Shell-pink of a shining, intense and distinctive color; of beautiful, globular form, perfect in stem and handsome, glossy foliage.

RADIANCE. No pen picture can do justice to this wonderful everblooming rose, which produces such loads of immense, double flowers, marvelous in their unusual coloring; a beautiful blending of shades of carmine rose with opal and coppery reflections, extremely brilliant in effect.

RED COLUMBIA. Deep brilliant red. One of the freest bloomers. No rose garden is complete without this grand variety. First size plants, 40c each; 2 year, \$1.00; postpaid.

RED RADIANCE. One of the most foremost outdoor Everbloomers. Produces its beautiful flowers in an amazing abundance; they are of splendid form, full and yet not too densely packed with petals, and practically every flower opens perfectly. A magnificent shade of cerise-red, which does not fade, and gives a glorious warm coloring of exquisite beauty. Exceptionally fragrant.

RHEA REID. Vivid scarlet-crimson; flowers large, bold and of splendid substance. It has a strong, disease-resisting constitution and is always in bloom. As an all-around garden bush rose it has no superior.

SUNBURST. Orange-copper or golden-orange and golden-yellow, all intense shades, giving an extremely brilliant effect. A giant rose, long stems, long, pointed buds, vigorous, free and healthy, with splendid keeping qualities as a forcer and also as an excellent bedder.

WHITE KILLARNEY. One of the most exquisite pure white roses. An excellent outdoor rose and none better for indoor culture.

WHITE OPHELIA. White, sometimes showing a daybreak pink in the center upon opening. Holds bud form longer than Ophelia, from which it is a sport, and has all of the good qualities found in the parent. First size plants, 35c each; 2 year, 75c; postpaid.

Hybrid Perpetual or June Roses

The Hybrid Perpetuals are the hardiest of all roses, and require but little care after once planted. Perhaps the most valuable of all hardy bushes for permanent planting, as they will succeed anywhere. Great numbers of people living in the northern States think they cannot grow Roses on account of the severe winters, but Roses can be grown in any climate, provided the right kinds are planted. We have listed below sturdy, vigorous kinds, suitable for the far North. They thrive in all sections of the country and bloom profusely and regularly at the usual time and intermittently throughout the summer months.

Dinsmore

yellow Hybrid Perpetual Rose, and a grand one.

JUBILEE. A new, hardy, everbloomer; buds long and graceful; flowers extremely large, full and double; color glowing, velvety crimson with shading of maroon-red at base; fragrance delicious.

MADAME CHARLES WOOD. Bright, fiery red; a generously large rose, very double, full and fragrant; handsome, showy, and a constant bloomer throughout the season.

MADAME MASSON. Blooms nearly all the time, bearing numbers of large, full, double flowers of unusual beauty and wonderful fragrance; clear, bright rose; very attractive and striking.

MADAME PLANTIER. A large, double, pure white Rose that can be especially recommended for cemetery planting. A continuous bloomer.

MRS. JOHN LAING. A beauty in clear, bright, shining pink; immense full blooms on long, stiff stems; sweetly scented. One of the most dependable fall bloomers.

PAUL NEYRON. The largest rose ever produced, sometimes measuring six inches across. In color, it is a most beautiful clear rose pink and possesses delicious distinctive fragrance equal to that of the American Beauty. Strong, upright grower; large leathery foliage; and a most abundant bloomer.

Madame Masson

AMERICAN BEAUTY. The famous rich glowing crimson Rose. First size plants, 40c each; 2 year, 85c; postpaid.

ANNA DE DIESBACH. A lovely shell pink; long pointed buds, flowers very full and double; sweetly fragrant.

CAPTAIN CHRISTY. Delicate flesh-pink, deepening at center to rosy-crimson. Large double flowers; almost everblooming.

CLIO. One of the grandest roses in existence. Flowers flesh color, shaded in the center with rosy-pink.

DINSMORE. A general favorite on account of its vigor of growth, constant and prolific bloom, which begins early and continues all through the season. Flowers large, perfectly double; rich crimson scarlet.

EUGENE FUERST. Deep red, shaded crimson; a profuse bloomer of fine form, large and full.

GENERAL JACQUEMINOT. The premier hardy crimson rose. Buds and flowers are considered models of perfection and its brilliant shining color is the standard by which other roses are judged. In fact, it is almost unequaled in beauty of form, brilliant intensity of color and elegant velvety richness.

GLOIRE LYON.

NAISE. As free blooming as a Hybrid Tea, with beautiful, large, pointed buds and immense flowers on strong, heavy stems; open flowers enormous, full, deep and double. Color rich, creamy white, passing to salmon-yellow. The nearest

White American Beauty

PINK AMERICAN BEAUTY. Delicate pink. Deliciously fragrant; free bloomer; faultless either as an indoor or outdoor variety. First size plants, 35c each; 2 year, 75c; postpaid.

PRINCE CAMILLE DE ROHAN. Universally known as "The Black Rose," owing to its very deep, velvety crimson color, passing to intense maroon, and shaded black; large handsome and fragrant blooms.

ULRICH BRUNNER. Makes immense blooms, almost as large as Paul Neyron. Color, bright cherry-red. Flowers are full and of exquisite shape.

WHITE AMERICAN BEAUTY (Frau Karl Druschki). This rose is renowned as the very highest type of its class and the best snow-white rose ever produced. A single plant produces hundreds of massive pure white flowers. The most continuous-flowering rose in this excellent class; long buds and immense, perfectly double flowers, 4 to 5 inches across, with waxlike petals and very durable. Excellent for cutting and for garden decoration. Absolutely hardy everywhere that roses grow.

PRICES All Roses in this catalog, except where otherwise noted, first size one-year plants, 30c each; 2 year old plants, 65c each, postpaid.

SPECIAL DISCOUNTS. 10% discount if you order 4 Rose plants; 15% if you order 8; 20% discount on 12; 30% on 20 or more, all to be shipped to one address. We prepay postage or express charges. **Take your choice of varieties.**

Hardy Polyantha or Baby Roses

Bloom Profusely from June until Frost

A Border of Polyantha or Baby Roses

Border your flower beds or garden walks with these delightful Roses and have a continuous mass of bloom from early spring until after frosts. The most profuse bloomers of all Roses. The growth is rapid and symmetrical, although dwarf, which makes a most desirable combination for edgings and borders and are unsurpassed for cemetery planting. Being perfectly hardy, low in growth and continuous bloomers, they are taking the place of Geraniums and other bedding plants, for once planted they are there to stay and increase in beauty yearly.

BABY DOLL. The lovely little buds and blooms are of perfect form and finish and resemble miniature tea roses; brilliant golden yellow, tipped with clear, bright cerise. It is hard to understand how these plants, which are dwarf in size, can be so constantly loaded with flowers from spring until late fall. The fine, sharply pointed, glossy, deep green foliage is most beautiful for corsage and dainty floral work.

CLOTILDE SOUPERT. One of the best of all bedding roses, producing clusters after clusters of the finest formed flowers; full and double and deliciously sweet. Color effect beautiful, ivory white, shading toward the center to silvery-rose.

ELLEN POULSEN. Yields a profusion of brilliant, deep pink, large flowers, borne in clusters.

ERNA TESCHENDORFF. Glistening dark red, of same type as Red Baby, but much brighter in color. A rose you can depend upon for bright bloom continuously from June until frost.

GEORGE ELGER (Yellow Baby). The finest pure yellow Baby Rose ever introduced. Double, dainty flowers; delightfully fragrant.

KATHERINE ZEIMET (White Baby). Free bloomer of great masses of double pure white glistening flowers, which are delightfully fragrant.

Mlle. CECILE BRUNNER. No Polyantha Rose can surpass this exquisite variety, with its sprays of rich, rosy-pink baby buds, which open into perfectly double miniature flowers of rosy-pink on rich creamy-white ground. Blooms the entire season and intensely fragrant.

RED BABY. Flowers borne in clusters of 20, 30 or more, resembling blossoms of the Climbing Crimson Rambler. A continuous show of bloom.

Choice Tea Roses

While not so hardy as the Hybrid Teas, they will, with protection, live through the winter everywhere except in the extreme North. In the South they are unexcelled, whether planted in the open ground or used for pot culture. The fact that one year old plants produce a profusion of flowers makes them indispensable to every rose lover.

ALEXANDER HILL GRAY. The finest lemon yellow Tea Rose; does not fade; hardy. Awarded Gold Medal by the National Rose Society.

CHARLES DINGEE. Pronounced by some growers to be the most wonderful bush rose in the world. It is hardy everywhere, absolutely free from disease and always in bloom. The flowers are immense in size, deep, double and grandly formed. Their beauty is nothing short of superb, impossible to describe because of the delicate blending of colors—rose tints in the center of the flower, gradually shading into pale blush creamy-white, producing a color effect found in no other rose.

LADY HILLINGDON. Deep apricot-yellow, shading to deep orange. Gold Medal National Rose Society.

PINK MAMAN COCHET. The best Pink Tea Rose. Hardy everywhere.

WHITE MAMAN COCHET. The best white Tea Rose. Vigorous as an oak and hardy everywhere.

Hardy Moss Roses

HENRI MARTIN. Very fragrant. Glossy red, tinged crimson.

MOUSSELINE. Very large; double; pure white.

PRINCESS ADELAIDE. Large; double; deep pink.

Alexander Hill Gray

Gruss an Teplitz

This great Hybrid China Rose is one of the most useful of all roses for the lawn. Grows freely to a height of 4 or 5 feet; hardy in all sections; vivid, dazzling, fiery crimson; sweetly fragrant; and is in bloom all the time.

PRICES

All Roses on this page, first size plants, 30c each; 2 year olds, 65c; postpaid. See page 28, 29, 30 or 32 for special discount on orders for four or more rose plants.

Hardy Climbing Roses

Climbing American Beauty

These Roses are necessary for the home, giving it a touch of beauty and calling forth more admiration than any other ornamental plants. They are used extensively for screening undesirable views of buildings and create most delightful and refreshing shade when used on porches, verandas, pillars and fences. All are hardy everywhere and require very little care and attention to produce an amazing profusion of exquisite hued blossoms.

ALIDA LOVETT. Bright shell pink with shadings of sulphur-yellow at the base of petals. Similar in size and form to Dr. Van Fleet.

BESS LOVETT. Clear, bright crimson, double, full, cupped, and of notable lasting quality. Resembles Climbing American Beauty, but is brighter in color and more fragrant.

CHRISTENE WRIGHT (Climbing Pink American Beauty). Very large, double flowers of exquisite wild-rose pink, produced on a strong and hardy plant of good habit. Blooms very early.

CLIMBING AMERICAN BEAUTY. A sturdy, vigorous grower, absolutely hardy, throwing strong flowering canes in one season which are covered with dark, glossy foliage that is immune to disease and insects. The Roses are 3 to 4 inches in diameter, are produced on individual stems, vivid rosy-crimson in color, and with the same delicious fragrance as the old American Beauty.

DR. VAN FLEET. No climbing Rose has created more favorable comment than Dr. Van Fleet, for the flowers are so perfect in every way—form, color, delicate fragrance—and borne on such long, strong stems. Cut a bouquet of this variety just before the flowers open, and you will find difficulty in procuring any other Rose to compare with them in loveliness. The splendid hearty growth, beautiful shining bronze-green foliage, crimson thorns, and perfect hardness, added to the exquisite blooms, make this a most desirable variety. Open flowers are 4 inches and over in diameter with high-built center and beautifully undulated and cupped petals. The color is a remarkable delicate shade of flesh-pink on the outer surface, deepening to rosy-flesh in the center. You can expect several canes, 10 to 15 feet long, every season, and these canes will produce masses of roses the following June. From one plant hundreds of roses can be cut each season. Flowers full and double; stems 12 to 18 inches long.

MARY LOVETT. The finest of all absolutely hardy white climbing roses. Could be appropriately described as a pure white Dr. Van Fleet.

PAUL'S SCARLET CLIMBER. Expert rose growers agree that this is the best and most valuable climbing red rose for home planting. The full, double, scarlet flowers cover the entire bush in a solid vivid mass of flaming red, making a brilliant display for a long time. The petals do not fade like many climbing roses, but retain their bright color, and remain in bloom for from two to four weeks. This rose received the gold medal and cup for the best Climbing Rose at the National Rose Society's exhibit, and at the test garden conducted by the American Rose Society and the Government at Washington, this variety was the outstanding feature.

SILVER MOON. Blooms very large, 4 or more inches in diameter; pure white with large bunch of yellow stamens in the center; single and beautifully cupped, forming a clematis-like flower.

Everblooming Climbing Roses

These Roses are exact duplicates of the bush Roses of the same name except that they are vigorous climbers. For information regarding colors, etc., see description of same varieties in bush form—pages 30, 31, and 33.

Rambler Roses

You surely have a place for some of this class of climbing Roses. You can use them on porches, arbors, arches, pergolas, clothes-posts, fences and old stumps of trees. Hardy everywhere.

BLUE RAMBLER. Flowers rosy-lilac when opening and change to a metallic blue. Very showy.

DOROTHY PERKINS. The finest of all pink ramblers. Flowers perfectly double and borne in immense clusters.

RED DOROTHY PERKINS (Exceelsa). The most popular red rambler. Flowers in large clusters of rich scarlet.

THOUSAND BEAUTIES (Tausendschon). A mass of bright, double blossoms borne in large clusters; colors of every imaginable shade from white to deep pink, all on one plant.

WHITE DOROTHY. A pure white sport of the well known Dorothy Perkins.

YELLOW RAMBLER. A grand variety, quite similar to the old Crimson Rambler, with the exception of color. Rich yellow flowers, borne in large clusters; blooms profusely, and is as hardy as an oak.

PRICES

All Roses in this catalog, except where otherwise noted, first size one-year plants, 30c each; 2 year old plants, 65c each, postpaid.

SPECIAL DISCOUNTS. 10% discount if you order 4 Rose plants; 15% if you order 8; 20% discount on 12; 30% on 20 or more. All must be shipped to one address in order to get these discounts. Take your choice of varieties. You may assort your order to please yourself, and each plant will go to you prepaid and properly labeled as to variety.

Yellow Ramblers

Now Is the Time to Make Big Money Growing Medical Plants

Drugs have greatly increased in prices during the past few years, so now is the time to commence growing root crops for medical purposes. Golden Seal and Ginseng are the two biggest money makers of them all. These roots now sell at enormous prices, and we believe we would be safe in saying that they will never be any cheaper than now. In fact, there is no reason why the prices on these roots will not steadily increase year after year. These plants formerly grew wild in most of the Northern States, and in many parts of the South, and it was from these wild plants that the supply of roots was formerly secured. The crop of wild roots is now nearly exhausted, and it has become necessary to cultivate these plants. The demand is increasing each year, and the supply decreasing, so you will be making no mistake if you devote a part of your time to the growing of these two plants.

Golden Seal

If you want to get started in the growing of medical plants, don't fail to plant some Golden Seal this year. It is easily grown, and is a sure money maker. When ready to dig, the roots should average at least one ounce each, green. This would make 18 pounds of dry roots to each square rod. At the present price of \$3.00 a pound this would bring you \$54.00 for the square rod. At this rate an acre would be worth \$8,640.00. Besides this, enough small plants will be found to set out twice as large a patch and the fibrous roots that are left in the ground will form buds and reset the patch.

The figures we give are not overdrawn in the least. One of the leading buyers of medicinal roots says he bought a crop of cultivated Golden Seal that averaged nearly 8 ounces per root, dried. They were worth about \$1.50 each. Think of it! An acre of such Golden Seal would bring \$211,200.00. Any good, well drained soil is suitable for the growing of Golden Seal. Seed should be planted in the fall, but as our supply will be limited, we, in all probabilities, will be unable to supply you with seed unless you send your order at the time you order your other seeds. Order now (send cash with order) and seeds will be mailed to you at the proper time for planting. Sold in sealed packets only. With each order for seed we will send complete cultural directions and the names and addresses of medical root buyers who will buy the roots from you. 36 packages of seed will plant one square rod. Pkt., 25c; 5 pkts., \$1.00; 12 pkts., \$2.00; 36 pkts., \$5.00; 80 pkts., \$10.00; postpaid.

A Bed of Ginseng

Ginseng

Ginseng is another money maker. Read the following, which we clipped from the Los Angeles Times:

"On one acre of ground Elias Kittle succeeded in producing a crop of ginseng which he has contracted to sell for \$50,000.00. The plot of ground contains between 80,000 and 90,000 roots, which, when dry, will weigh over an ounce apiece. Kittle began on a small scale five years ago when he planted some ginseng on the plot, then he set out the plants in large quantities in the shade of a small patch of woods. He has nursed his crop and now has an acre of ginseng which he claims is 'worth its weight in gold.'"

Also read the following news item, clipped from a Wisconsin daily paper:

"Wausau, Wis., May 21—(Special)—Perhaps by far the most valuable load of products of the soil that ever crossed the streets of Wausau, was seen a few days ago, drawn by one horse. The load consisted of eighteen inconspicuous barrels and no one would have surmised its value had it not been that J. H. Koehler was seen watching it with eagle eyes. Upon inquiry it was found that the barrels contained 1,343½ pounds of ginseng, which had been sold for \$8.061, and was now being started on its long journey to China. The crop was grown on one-half acre of ground near Wausau."

The average market price of dry ginseng roots is generally about \$7.00 or \$8.00 per pound, but at the time of going to press with this catalog, buyers are paying from \$12.00 to \$14.00 per pound for roots of good quality, and there seems little likelihood of any radical slump in price.

Ginseng should be planted only in the fall, but to be certain of getting the seed, you should order same as soon as possible, for we will probably have our supply all sold long before planting time. The best way is to order your Ginseng seed at the same time you order your other seeds; then we can be sure to supply you. With each order for seed we will send complete cultural directions and names and addresses of buyers who will buy the roots from you. 36 packets of seed will plant one square rod. Pkt., 25c; 5 pkts., \$1.00; 12 pkts., \$2.00; 36 pkts., \$5.00; 80 pkts., \$10.00; postpaid.

Golden Seal

Ginseng

Golden Seal and Ginseng Plants

Many of our customers wish to set out Ginseng and Golden Seal plants, and get a patch started in that way, instead of planting seed, and to such persons we can supply plants in limited quantities. Others want to know how to identify these plants when they find them growing wild. It is rather difficult for us to so describe them that one can be positive in their identity after reading the descriptions only, but we can supply any of our customers with one or more of the plants, which will be a positive guide to anyone wishing to dig wild plants.

We have but a limited number of the plants to offer, so would recommend that you place your order as early as possible. Plants will then be sent at the proper time for transplanting. Golden Seal plants can be supplied either spring or fall; Ginseng plants, fall only. Plan on setting about 800 plants to each square rod.

Prices of either Golden Seal or Ginseng Plants: One plant, 25c; 6 for 75c; 12 for \$1.25; 25 for \$2.00; 50 for \$3.50; 100 for \$6.00; 250 for \$13.50; 500 for \$25.00; 1,000 for \$45.00; delivered to any part of the United States, prepaid.

APPLE TREES 5c to 20c Each

Bartlett

Summer Apples

EARLY HARVEST. Fruit of medium size; bright straw color when fully ripe. Flesh of excellent quality; tender, crisp and juicy.

RED ASTRACHAN. Most attractive early red apple. Flesh white, crisp and juicy, with a pleasant acid flavor. One of the best early eating apples.

YELLOW TRANSPARENT. The earliest apple to bear; good crop when trees are four to five years of age. Skin pale yellow. Flesh white, crisp, juicy, mildly sub-acid. An excellent eating and cooking apple.

Fall Apples

DUCHESS OF OLDENBURG. Good size; pale yellow, streaked red; juicy, sour; highly esteemed for home use or market. Good crop when trees are 4 or 5 years old.

FALL PIPPIN. Large, yellow, rich, aromatic. Fine eating apple and especially good for cooking.

MAIDEN BLUSH. Yellow with red cheek. Fruit medium to large; juicy, pleasantly sub-acid. Excellent for culinary use.

SNOW APPLE (Fameuse). Red skin, white flesh; juicy, mild, spicy and very tender.

WEALTHY. Rich dark red. Medium to large. Flesh white, sometimes stained with red. Fine grained, tender, juicy and of excellent quality. Trees mature early; bear when 4 years old and large crops every year.

Winter Apples

BALDWIN. Yellowish red, heavily shaded with deep red. Large, splendid keeper, good cooker, and one of the most popular varieties.

DELICIOUS. Large; striped and marked with light and dark red. Flesh fine grained, tender and flowing over with rich, highly flavored juice. Tree matures early; unusually productive.

GRIMES GOLDEN. Rich, golden yellow skin, mild sub-acid flavor, tender and juicy. A dependable and uniform bearer.

JONATHAN. Medium size, bright red apple; tender, crisp, very juicy, with a fine flavor. Comes into bearing rather young.

MCINTOSH. Medium size, deep crimson, highest quality, juicy, sour. Comes into bearing rather young.

NORTHERN SPY. Large, red striped, juicy, mild sub-acid, with a rich, delicious flavor. Extra long keeper. None better for cooking or eating out of hand.

RHODE ISLAND GREENING. Large, greenish-yellow, juicy, with a rich acid flavor. Good keeper. One of the best cooking apples.

STAYMAN WINESAP. Large, deep red skin; juicy, sour, pleasing flavor. An excellent keeper.

TALMAN SWEET. Best sweet. Yellow, medium to large. Comes into bearing moderately young.

Crab Apples

HYSLOP. Brilliant dark red overspread with thick blue bloom. The best and most reliable crab apple.

Read This Before Buying Apples

We can furnish apple trees in 1-year, 2-year and baby sizes. Our 1-year and 2-year size trees are the same as those sold by nursery agents at much higher prices. Those we list as 1-year size are really two year old roots on one year tops; our 2-year trees are three year roots on two year tops. Our baby size trees are one year old roots and are what is known to the trade as apple grafts. From selected apple trees of known varieties, bright, healthy branches are cut into lengths about 9 inches long and carefully grafted to one-year old apple tree roots. These baby size newly grafted trees are delivered to you ready to plant. These little grafted trees are the same as the leading nurserymen all over the country are planting, and should make a growth of from 3 to 6 feet the first season. It will take just one year longer to produce an apple orchard of bearing age from our mailing size apple graft trees than it will from our standard 1-year size. We recommend the larger trees to our customers who can afford to pay the difference in price, but if you can't afford to buy the standard sizes, then, by all means, order the baby size and get an apple orchard started now rather than wait until next year to get the standard size trees.

Prices of Apple Trees

BABY SIZE. 20c each; 3 for 40c; 6 for 60c; 12 for \$1.00; 25 for \$1.75; 50 for \$3.00; or \$5.00 per 100, delivered to any part of the United States, by parcel post, postpaid.

STANDARD (1-year, 3 to 4 feet). 80c each; 3 for \$2.00; 5 for \$3.00; 10 for \$5.00, by parcel post, postpaid. By express, not prepaid: 50 for \$20.00 or \$38.00 per 100.

EXTRA (2-year, 4 to 6 feet, well branched). 85c each; 3 for \$2.25; 5 for \$3.50; 10 for \$6.50; 50 for \$28.00; or \$50.00 per 100, by express, not prepaid. These trees are too large to send by parcel post.

Delicious

Mc Intosh

PEAR TREES 10c to 25c Each

BARTLETT. Popular everywhere. Large, yellow, juicy pear. September.

CLAPP'S FAVORITE. Large, juicy, splendid flavor. August.

FLEMISH BEAUTY. Large; juicy and melting, rich, sweet and excellent flavor. September and October.

SEKEL. Small; juicy, melting, tender. Fine for preserving and pickling. September and October.

PRICES BABY SIZE (Same as Baby Size of Apples). 25c each; 2 for 40c; 4 for 70c; 12 for \$1.75; 25 for \$3.00; 50 for \$5.50; 100 for \$10.00, delivered to any part of the United States, by parcel post, postpaid.

STANDARD SIZE. 90c each; 3 for \$2.50; 5 for \$4.00; 10 for \$7.00, by parcel post, postpaid. By express, not prepaid: 50 for \$30.00 or \$55.00 per 100.

EXTRA-STANDARD. \$1.00 each; 3 for \$2.75; 5 for \$4.25; 10 for \$7.50; 50 for \$33.00; or \$60.00 per 100, by express, not prepaid.

PEACHES

We have picked out what we consider to be the best eight varieties of Peach—those that have proven their worth under the most unfavorable conditions and in all soils and climates. If you will limit your planting to these varieties you will be making no mistake. It is best to plant a few peach trees each year, in the home garden, as the younger trees as a rule bear fruit of better quality and in that way you have trees coming into bearing each year.

BELLE OF GEORGIA. Very large, white fleshed with red cheek; firm, juicy and excellent flavor. Very hardy and grows with equal success in both North and South. Productive; early; stone semi-free to free. The most beautiful white peach grown.

CARMAN. One of the Carman's greatest assets is its rugged constitution which enables it to withstand trying climates, and to accommodate itself to a great variety of soils. Flesh white, red at the pit, juicy, rich and sweet. Stone nearly free. Early.

CRAWFORD LATE. A grand, large, yellow freestone. One of the best late varieties.

ELBERTA. The most popular peach grown. Large, yellow with red cheek; flesh yellow, firm, juicy, highly flavored, rich and sweet; exceedingly prolific, sure bearer and hardy. An ideal mid-season variety. Freestone.

HALE. Beautiful golden yellow overlaid with bright carmine; larger than Elberta and ripens a week earlier. Good shipper and keeper, and on the market it commands the highest price. Freestone.

KALAMAZOO. A beautiful peach that will bear good crops of fruit when all other varieties fail. The surest cropper of them all, and very hardy. Large, golden yellow with crimson cheek; yellow flesh, superb quality, small pit. Mid-season. Freestone.

LEMON FREE. Lemon-shaped and colored, large size, freestone, immensely productive, excellent quality. One of the best commercial peaches and the most popular for canning. Late.

ROCHESTER. In a class by itself because it is the only good sized yellow freestone peach of fine quality ready for market from the 10th to the middle of August in the Northern States. Large, yellow with a most attractive red blush; juicy, delicious and keeps well. Strong grower, good bearer and very hardy.

Prices of Peach Trees

STANDARD SIZE TREES (3 feet or less). 60c each; **Lombard Plums** 3 for \$1.50; 5 for \$2.25; 10 for \$4.00, by parcel post, postpaid. By express, not prepaid: 50 or more at 35c each; 100 or more at 30c each.

EXTRA-STANDARD (3 to 5 feet). 75c each; 3 for \$2.00; 5 for \$3.00; 10 for \$5.00; 50 for \$22.50; or \$40.00 per 100, by express, not prepaid.

PLUMS (the five best varieties)

ABUNDANCE (Japan). Large, red, very juicy, tender and melting, sweet. Early.

BRADSHAW. Large, purplish-red, juicy; good keeper and shipper. Mid-season. **BURBANK** (Japan). Skin dark red over a yellow ground; juicy sweet. Good shipper; ripens a week later than Abundance. Large.

GERMAN PRUNE. Purplish-black, medium juicy, large. Good market variety; one of the most popular for canning, because of its sweetness.

LOMBARD. Medium size, red, juicy and sweet. Will grow anywhere and should be in every garden.

STANDARD SIZE. 90c each; 3 for \$2.50; 5 for \$4.00; 10 for \$7.50, by parcel post, postpaid. By express, not prepaid: 50 or more at 60c each; 100 or more at 55c each.

EXTRA-STANDARD. \$1.20 each; 3 for \$3.25; 5 for \$5.00; 10 for \$9.00; 50 for \$40.00; or \$75.00 per 100, by express, not prepaid.

Bing Cherries

SWEET CHERRIES

BING. The best black sweet cherry; large; delicious. Tree hardy and vigorous; bears early and abundant.

NAPOLEON (Ox-heart). Yellow with a bright red cheek; very large. Meaty, crisp and sweet. Much sought after by canners and fruit dealers. Very productive; bears young.

STANDARD SIZE. \$1.25 each; 3 for \$3.50; 5 for \$5.75; 10 for \$11.00, by parcel post, postpaid. By express, not prepaid: 50 or more at \$1.00 each; 100 or more at 90c each.

EXTRA-STANDARD. \$1.40 each; 3 for \$4.00; 5 for \$6.50; 10 for \$12.00; 50 for \$55.00; 100 for \$100.00, by express, not prepaid.

SOUR CHERRIES

EARLY RICHMOND. A dependable variety which seldom misses a crop. Medium, dark red, juicy, rich acid. Best early sour cherry.

LARGE MONTMORENCY. A large red acid cherry. Larger than Early Richmond and fully ten days later. The leading commercial variety.

STANDARD SIZE. 90c each; 3 for \$2.50; 5 for \$4.00; 10 for \$7.50, by parcel post, postpaid. By express, not prepaid: 50 or more at 60c each; 100 or more at 55c each.

EXTRA-STANDARD. \$1.20 each; 3 for \$3.25; 5 for \$5.00; 10 for \$9.00; 50 for \$40.00; or \$75.00 per 100, by express, not prepaid.

Elberta Peaches

\$1000.00 per acre With Our New Raspberry

LATHAM, or REDPATH (red). Conceded to be the best late red raspberry, has more points of merit and has come into general planting more rapidly than any other raspberry ever introduced. It is vigorous in growth; withstands the winters in Canada without covering; and exceptionally free from Mosaic and other diseases. The large berries, some running over an inch in diameter, and the deep red color make it most attractive, and it is the most productive variety grown. Growers are beginning to realize that no other late red raspberry will make them so much money, so surely and quickly as the Latham. One nine-acre field of Latham in Minnesota produced an average of \$1,000.00 per acre each year for the past five years, and similar reports are coming from all sections of the country.

PRICES: 6 for 75c; 12 for \$1.25; 25 for \$2.00; 50 for \$3.75; 100 for \$7.00, delivered prepaid to any part of the United States. By express, not prepaid, \$6.00 per 100; \$12.00 per 250; or \$40.00 per 1,000, in quantities of 500 or more.

EARLY KING (red). The earliest and most beautiful early red raspberry. Growers all over the country are discarding other varieties, owing to the big profits that can be made growing the King. Extreme hardiness, earliness, productiveness, excellent quality, large size, firmness, and bright color which holds until placed on the most distant market, together with the fact that King plants are most vigorous growers and entirely free from disease, make it the most profitable early red raspberry to

St. Regis Everbearing

grow. 6 for 50c; 12 for 80c; 25 for \$1.35; 50 for \$2.25; 100 for \$4.00, by parcel post, prepaid. By express not prepaid, \$3.00 per 100; \$6.00 per 250; or \$20.00 per 1,000 in lots of 500 or more.

ST. REGIS EVERBEARING (red). Fruit commences to ripen with the early varieties of red raspberries, and continues to produce fruit during the summer and fall, and until the berries freeze in the fall or early winter. As to quality of fruit, St. Regis has no superior. Berries bright crimson, large size, rich, sugary, and of the best flavor. St. Regis is exceedingly hardy, the canes enduring the severest cold uninjured. Wonderfully prolific. The only red raspberry that yields a crop of fruit the first season. Plants set in the spring will commence bearing the following June. Cutting off the canes near the ground, late in the fall, prevents the summer crop and has a tendency to make the fall crop more abundant. 6 for 65c; 12 for \$1.00; 25 for \$1.75; 50 for \$3.00; 100 for \$5.50, prepaid. By express, not prepaid, \$4.50 per 100; \$9.00 per 250; or \$30.00 per 1,000, in quantities of 500 or more.

CUMBERLAND (black). The largest and most productive black raspberry. Ripens medium-early and continues throughout the raspberry season. Very hardy, and the most profitable market sort. Prices same as St. Regis.

Cumberland Black Raspberry

Eldorado Blackberry

PLUM FARMER (black). The earliest black cap. Very valuable because of its extreme earliness. Fruit of excellent quality. Prices same as St. Regis.

GREGG (black). The best late black raspberry. Large and of excellent quality. Prices same as St. Regis.

COLUMBIAN (purple). A cross between a black and red raspberry, the result of which is a purple berry. Do not sucker or spread from the roots like red varieties. This makes it a most desirable sort for the home garden. Berries large, rich and juicy, and better than red or black raspberries for canning. Prices same as Latham.

BLACKBERRIES

ELDORADO. We recommend this variety ahead of all others. The berries are large in size, very sweet, and of delicious flavor and quality. It is one of the hardiest blackberries in cultivation and has never been known to winterkill. Very productive, and never fails to ripen a crop. 6 for 65c; 12 for \$1.00; 25 for \$1.75; 50 for \$3.00; 100 for \$5.50, prepaid. By express, not prepaid, \$4.50 per 100; \$9.00 per 250; or \$30.00 per 1,000 in lots of 500 or more.

ICEBERG. This is the white blackberry. It is not merely a curiosity, for in addition to being a real novelty it is a berry of extraordinary quality. These shining creamy-white berries, when mixed with jet-black ones, make a most attractive dish. The bushes are good strong growers and very productive. For best results, this variety should be planted near other blackberries. Plants, 20c each; 3 for 50c; 12 for \$1.50; 25 for \$2.75; prepaid.

THE BIG MONEY-MAKER BERRY

**\$1000.00 a Year per Acre with
Lucretia Dewberries**

Dewberries are bringing big money and we are advising our customers to get started with them as soon as possible.

Lucretia Dewberries are larger than any blackberry, sweeter and milder in flavor, and of excellent quality for home use or market. They ripen a week or ten days ahead of common blackberries, the bulk of the crop being harvested before other blackberries start to ripen, so sell at very high prices.

The Dewberry belongs to the blackberry family, and the Lucretia is the best of them all. The large berries are incomparably better than any blackberry grown; of unequalled excellence; sweet and luscious throughout, and of bright glossy black color. They are very productive, and the most profitable of all fruit crops to grow. The Lucretia has received the highest endorsement and highest praise from the best horticulturists in the country. Its trailing habit renders it less liable to winterkill. Propagates from the tips, like black raspberries; does not spread or sucker.

There are two methods of growing the Dewberry. One is to set the plants 4 feet apart in the row, with rows 6 to 7 feet apart. Allow them to grow along the row in their natural way, removing all the new growth until after blooming time, and then allow only enough new vines to grow to provide for the next crop, and at the same time shade the ripening fruit. In this way they will ripen earlier than they would tied up to wires or stakes, the whole crop being grown in nature's own way, down among the dewy leaves unexposed to strong rays of summer sun. Controlling the new growth each season does away with the necessity of stakes or posts and wire.

The other method of growing is to use short posts and wire. Grown in this way, the fruit is much easier to pick, but is not quite as early. The posts need be only 30 to 36 inches high. Use one wire and in the spring tie all canes onto same, holding them off the ground. Let the new canes lie on the ground throughout growing season, covering them slightly for winter protection in climates where the winters are severe. Cut away old wood in spring and tie new canes on wire, or old wood can be removed soon after harvesting the crop.

We absolutely guarantee our plants to be the genuine large fruited Lucretia. About 1,700 plants are required to set an acre.

PRICES: 6 for 60c; 12 for 95c; 25 for \$1.60; 50 for \$2.75; 100 for \$5.00; by parcel post, postpaid. By express, not prepaid, \$4.00 per 100; \$8.00 per 250; or \$26.00 per 1,000 in lots of 500 or more.

Lucretia Dewberry

The Last Word in Modern Gardening Efficiency

All growing plants—outdoor and in—must be fed if you expect them to produce results, and they respond in a remarkable way to proper feeding. Everything you grow depends on fertilization. STIM-U-PLANT will make flowering plants bloom freely and hold their blossoms longer; foliage plants quickly put on new growth; vegetable crops, berry bushes, fruit and other plants increase production, so

it pays for itself many times over in a season.

Many fertilizers are slow-acting, their percentage of actual plant food ingredients low and unevenly proportioned. STIM-U-PLANT has guaranteed analysis of 11 per cent nitrogen, 12 per cent phosphoric acid, 15 per cent potash.

EASY TO USE—IMMEDIATE RESULTS—DIRECTIONS WITH EVERY PACKAGE

This wonderful fertilizer and plant food is odorless—has no obnoxious, messy characteristics. To use, simply insert a tablet in soil near each plant; or dissolve in water at the rate of four tablets per gallon and use as liquid manure. For plants in drills, put tablets a foot apart along row; in beds, a foot apart each way. Complete, easy directions with every package. Tablets dissolve readily, insuring that the richest kind of plant food goes at once to the plant feeder roots exactly where and when food is needed.

A PROVED SUCCESS

By using STIM-U-PLANT you save money because it is not wastefully thrown broadcast, nor does it carry weed seeds into your soil. Scientifically made of pure, essential plant food elements, its exceptional richness is correctly proportioned to quickly produce satisfying results on all plant life, whether growing in garden, orchard, "berry patch" or conservatory.

STIM-U-PLANT is a proven success with gardeners and florists. Nothing else equals it as a fertilizer for house plants

Prices, postpaid: Small size, 25c; 100 tablets, 75c; 1,000 tablets, in bucket, \$3.50.

StimUplant
Makes a
Wonder Garden

SHEEP MANURE

Pronounced by chemists to be the Best and Safest Fertilizer for everything that grows. A weedless, concentrated manure that puts life and fertility into your soil. No matter what plants you grow, you need manure to secure best results. Wizard is far superior to chemical stimulants and stable manure. It is a real plant food that has a lasting beneficial effect on the soil.

Promotes thick velvety green lawns, a wealth of vivid colored flowers in your garden and vigorous growing shrubbery. In the vegetable garden it produces early crops of crisp tender vegetables. A highly profitable fertilizer for the florist, vegetable grower and home gardener.

Amount to use: Fruits and vegetables, 1,000 to 1,500 lbs. per acre. Old lawns, 30 to 60 lbs. per 1,000 square feet. New lawns, 60 to 100 lbs. per 1,000 square feet. Home gardens, 3 to 5 lbs. per 100 square feet. Trees, 3 to 5 lbs. each. Vines and bushes, 1 lb. each. For making potting soil, mix thoroughly one part of sheep manure with six parts soil.

PRICES, by freight, not prepaid: 50 lbs., \$1.50; 100 lbs., \$2.50; 500 lbs., \$10.00; 1,000 lbs., \$19.00; ton, \$36.00.

Hall's Tobacco Dust

Destroys aphids and soft-bodied, sucking insects that poisons can not kill. Particularly useful in both vegetable and flower gardens, and for vines, roses, etc., and for keeping all kinds of house plants free from insect pests. 2 lb. box, 65c, postpaid; 100 lbs., by freight or express, not prepaid, \$4.50.

Eskimo Beauty Roses

The Hardest of all Fine Roses

35c Each
3 for \$1.00

Eskimo Beauty

These Roses grow where no others will. They were produced by crossing the hardy Rugosa Rose with the best of the double, everblooming varieties. Eskimo Beauties grow, thrive and bloom anywhere. They are the ideal cold climate Rose. They will grow in the South and in the Middle West; they will stand the winters of Minnesota, Wisconsin and the Dakotas without protection. In hardiness and vigor they are kindred to the Fir and Spruce. They make dense, sturdy, compact bushes, 4 to 6 feet high, and are very ornamental. Once planted they are permanent; no pruning or spraying; do well in the most trying places—seashore, mountains or anywhere. On account of the shapeliness of their growth and freedom from insects and disease, these Roses are especially valuable for use as lawn specimens, and will last for years and yield an abundance of large, double, fragrant, colorful blooms—the most dependable Roses for very cold climates. That is why they are called Eskimo Beauties.

We have three Eskimo Beauty Roses, as follows:

CONRAD F. MEYER. Splendid, large, elegantly formed buds and flowers, $3\frac{1}{2}$ to 4 inches across and perfectly double. Color is clear silvery-rose; very attractive and intensely fragrant.

NEW CENTURY. Beautiful rosy-pink in clusters of large, full and double flowers.

SIR THOMAS LIPTON. The best double white Rose in its class; beautiful and constant in bloom; of most vigorous habit, producing a bush 5 or 6 feet high, and as great in diameter.

Your choice of the above Roses, first size one-year plants, 35c each; 3 for \$1.00, postpaid. 2 year old plants, 70c each; 3 for \$2.00, postpaid.

Jumbo Seed Collection

Beans	that grow from 2 to 4 feet long
Watermelons	" " " 50 to 150 lbs.
Pumpkins	" " " 100 to 300 lbs.
Cabbages	" " " 20 to 30 lbs.
Radishes	" " " 10 to 30 lbs.

Get these five packets of seeds and take some prizes at your county fair. What do you think of pumpkins so large that it takes two men to carry one, and other vegetables as large as mentioned. These jumbo varieties often grow to the sizes mentioned, and we can see no reason why you can't grow them just as large, and perhaps larger, if you give them good care. Be the first in your neighborhood to grow these mammoth varieties. Send 30c today, and we will send you by return mail, postpaid, these five packets of seed. This is a bargain offer, so send at once, before the seed is all gone.

Fragrant Fern

Chinese Fragrant Fern

This beautiful tropical-looking, ornamental foliage plant from China, is one of the most marvelous ever introduced in this country. The foliage is exquisite, very delicate and lace-like. Blooms profusely, and both flower and foliage are deliciously fragrant. Sprays of the foliage kept in a room or trunk will impart the most wonderful sweet perfume for a year or more. No bouquet or vase is complete without this fragrant flowering fern. The Chinese Fragrant Fern is a plant of easiest culture; will thrive out of doors, in any soil or situation, and is especially recommended as a house plant. Grows rapidly from seed and soon reaches its full size—2 to 3 feet as a house plant or 4 to 5 feet in the open ground. Every packet of seed will produce 20 or more lovely ferns. Don't miss these perfumed beauties. Nothing else like them. Pkt., 10c; 3 pkts., 25c.

Excelsior Pearl Tuberose

EXCELSIOR PEARL is the finest of all Tuberose. Spikes and blooms enormous in size and very double and fragrant. 10c each; 3 for 25c; 12 for 90c; postpaid.

Oxalis

Fine for borders, pot culture, hanging baskets, vases, etc. White, Pink or Red, your choice of colors. 5c each; 25c per doz.; \$1.50 per 100; postpaid.

RIPE TOMATOES IN MICHIGAN THE FIRST OF JULY

Mrs. Freida M. Wolgast, Saginaw, Mich., wrote on June 29th: "Another week or so and I will have tomatoes, Burgess' Earliest and Best." Just think of it, ripe tomatoes the first of July in Michigan. See page 3 for description of this grand tomato.

Resurrection Plant, or "Rose of Jericho"

These peculiar plants are found among the pines and cedars of Palestine. When you get the plant it will have the appearance of a ball of tightly folded leaflets, dry and dead. Put it in water and it will open up its handsome fern-like foliage, turn green and begin to grow in about twenty minutes. Take it out of the water and it curls up, turns brown and becomes dead again. It is capable of apparently dying and coming to life again repeatedly, and will keep in its dead or dormant state for years and re-awaken directly upon being placed in water.

It is an interesting, curious and most beautiful house plant with fine fern-like leaves of very agreeable fragrance. If you want a "table fern" that will prove satisfactory under all conditions, don't fail to get one of these marvels of plant life. Grows and thrives in a shallow bowl of water, and is greatly admired by everyone. 15c each; 2 for 25c, postpaid.

Tuberose

Fresh Grapes from Early Summer Until Winter

Grapes Grow Everywhere—On All Kinds of Soil

The grape is one of the easiest fruits to grow. There is scarcely a country or city yard or garden so small that space cannot be found to plant one or more grape vines. Grapes will thrive anywhere, in any climate or soil. Will do well on soil too poor to raise a crop of grain or other fruit. A Grape vineyard represents a permanent investment that will pay big dividends every year for a lifetime. The original Concord Grape vine, located near Boston, is over 100 years old and is still producing large crops of nice grapes every year.

SPECIAL GRAPE OFFER—Select the kinds you want at these prices

3 Choice Grape Vines (your selection of varieties) \$1.00; 6 Choice Vines (one of each kind, or your selection of varieties) \$1.75; 12 Choice Vines (two of each kind, or your selection of varieties) \$3.00; 25 for \$5.50; 50 for \$10.00; 100 for \$18.00, delivered, prepaid, anywhere in the United States.

BRIGHTON is the large, red Grape shown above. One of the sweetest and most delicious grapes grown. Very productive, but for best results should be planted with other sorts for pollenization. Moore's Early and Worden are ideal for this purpose. Hardy and vigorous, ripens two weeks ahead of Concord. No vineyard is complete without this grand variety. 35c each, postpaid.

CONCORD. The most widely grown and the most popular variety. A large, blue-black Grape, ripening about the middle of September in our locality. Will not winterkill; healthy, vigorous vine; large bunch and berry and will produce more fruit year in and year out than any other sort. Successful in all sections and the most profitable market Grape grown. 20c each; 3 for 40c; 6 for 60c; 12 for \$1.00; 25 for \$2.00; 50 for \$3.85; 100 for \$7.50, postpaid. By express, not prepaid: 100 for \$7.00; 250 for \$15.00; 500 for \$27.00; 1,000 for \$50.00.

DELAWARE is the small, red Grape shown above. No American Grape has a more delicate flavor or more pleasing aroma. Ripens with Concord. Brings from 50 to 100 per cent more on the market than other varieties. A hardy, vigorous vine; succeeds both North and South. 35c each, postpaid.

MOORE'S EARLY is the blue Grape shown above. Larger than Concord and ripens two weeks earlier; very hardy and productive. The best early blue Grape. 35c each, postpaid.

NIAGARA is the white Grape shown above. The leading white Grape throughout the country. Ranks with Concord in vigor and productiveness. Bunch and berry large and handsome; greenish white, changing to pale yellow when fully ripe. Tender, sweet, juicy, and excellent flavor. No other white Grape equals Niagara. 35c each, postpaid.

WORDEN. Larger berries and bunches than Concord and of better quality, and ripens a week or ten days earlier. It is fine for the home garden, but not recommended as a market variety on account of its thin skin. 35c each, postpaid.

Hardy Chrysanthemums

The fluffy, double flowers of many of the improved type of Chrysanthemum are of most beautiful form and color, and are far superior to many greenhouse varieties. These beautiful, hardy varieties deserve a place in every garden, coming as they do after the summer flowers have begun to wane, and continuing to bloom profusely until long after all other flowers have been killed by fall frosts. We have counted over 300 blossoms at one time on a single plant. These same hardy varieties are also grown as pot plants, and we can highly recommend them for that purpose. We have a fine assortment of varieties and colors and are offering them in mixture, as long as they last, at 30c each; 4 for \$1.00; or \$2.00 per dozen, postpaid.

2 PRIZE PHLOX, 60c

Our new improved Perennial Phlox are revelations of beauty, and absolutely hardy everywhere. The long blooming period, from July to October, and the showy colors, make them indispensable for landscape work, massing, and for cutting. Crimson, Scarlet, Pink, White. Field grown plants, your choice of colors, 35c each; 2 for 60c; 6 for \$1.65; 12 for \$3.00, postpaid.

PEONIES

Chinese Peonies are very desirable on account of their large size, fine colors and profuse blooming. They are perfectly hardy, and will succeed in any ground unless so wet the water stands on the surface in the winter and spring. May be planted either in the autumn or spring. We have some extra choice Peony plants to offer this season.

Red, 60c each; 3 for \$1.50.

Pink or White, 50c each; 3 for \$1.25.

SPECIAL OFFER. 3 Peonies—one of each color—for only \$1.35.

3 SUPERB IRIS, 65c

Our superb Iris rival the most choice orchids in beauty of form and exquisite colors; flower with lavish profusion and are so hardy and sturdy they succeed with almost no care. Blue, Purple, Lavender, Pink, Yellow and White. Field grown plants, your choice of colors, 25c each; 3 for 65c; 6 for \$1.10; 12 for \$2.00, postpaid.

Hardy Everblooming Phlox.

Admirably adapted for the flower garden and for cemetery planting. Field grown plants, 35c each; 2 for 60c; 6 for \$1.65; 12 for \$3.00, postpaid.

2 Beautiful Hollyhocks, 60c.

Double Yellow, Double White, Single Red, Single Pink and Single White. Field grown plants, your choice of colors, 35c each; 2 for 60c; 6 for \$1.65; 12 for \$3.00, postpaid.

2 Grand Delphiniums, 60c.

Our Improved Hybrid Delphiniums (Perennial Larkspurs) give a wonderful range of color running from the very lightest shades of blue to royal purple, through the most marvelous shades of azure, gentian and sapphire. Many of them have large, distinct centers, which are of a different shade of color than the surrounding petals and furnish a most beautiful contrast. Many of the light blues have a deep black center. In some of the others the centers are brilliant rose or cream color, against dark blue ground. The plants bloom continually from June until frost; one of the most attractive flowers for garden or lawn; last a long time as cut flowers. Field grown plants, 35c each; 2 for 60c; 6 for \$1.65; 12 for \$3.00, postpaid.

2 Gorgeous Oriental Poppies, 60c.

For gorgeous coloring the Oriental Poppy has few rivals among hardy plants. They produce magnificent effect in shrubberies and herbaceous borders, while for cutting they are invaluable. Grow from 3 to 3½ feet high, with flowers of immense size during May and June, and whether planted singly or in masses their large flowers and freedom of bloom render them most conspicuous in any position. Field grown plants, 35c each; 2 for 60c; 6 for \$1.65; 12 for \$3.00, postpaid.
